## Saigon's New Plan Denies NLF A Flag

PARIS (AP) — The Saigon government's peace negotiators were reported today to have made another proposal that the Communists are sure to reject, raising the prospect of more delay in the start of the Vietnam peace talks even if the delegations ever agree on the shape of the conference table.

Diplomatic informants said Pham Dang Lam, the nominal leader of the South Vietnamese delegation, had proposed to the U.S. delegation that only the United States and North and South Vietnam be allowed to display their flags and name plates at the enlarged peace talks.

The proposal would deny these sovereignty symbols to the Viet Cong's National Liberation Front, the fourth delegation that is to be at the talks, on the ground that it is not a government. Since Hanoi and the NLF contend that the Front is the only legitimate representative of the South Vietnamese people and that the Saigon government is an American puppet representing no one, the Communists are certain to insist on full status for the NLF just as they have in the dispute over the shape of the conference table.

The informants said the Americans have not submitted Saigon's flag nameplate proposal to the North Vietnamese in the private meetings that the men from Hanoi and Washington hold to discuss conference procedure. The American negotiators reportedly warned Lam that Hanoi might offer to meet without any flags or nameplates, a move which could be dressed up as a major concession although in fact, it conceded nothing of significance.

Meanwhile, the shape of the table remains the major prestige issue blocking the start of the expanded peace talks.

## Mother, Kids Died Before Explosion

KALAMAZOO (AP) — Medical authorities say that a Kalamazoo mother and her three children, whose bodies were found after their house exploded Sunday, died from inhaling carbon monoxide gas.

Dr. Leo B. Rasmussen, deputy Kalamazoo County coroner, made the report Tuesday in announcing the results of an autopsy.

The victims included Mrs. Lillian McGhee, 31, and her children, ages 12, 11 and 3.

Consumers Power Co. and the Michigan Public Service Commission continued to investigate the tragedy. On Sunday, officials had to repair a coupling in a two-inch gas main, 50 inches underground and 15 feet east of the McGhee home.

## Hairy Librarian Is Sent Home

YPSILANTI (AP) — Roy Ashmall hasn't had a haircut since September when his classes at Ypsilanti's Willow Run High School began. Because of his long hair, he's been sent home.

Ashmall, 28, is a librarian. "We can't have him facing the public with his appearance," said Eddie M. Nelson, the school's principal.

"Some of us feel it's a way to relate to the students," Ashmall, in his first year as a teacher, replied.

Nelson, who said he only gave Ashmall "some time off," said, "If he refuses to cut his hair, maybe we can reassign him somewhere in the system where he won't have to face people all the time." The teacher had worked in the school library.

And Ashmall, who said he isn't particularly wild about his long tresses, has met with officials of the American Civil Liberties Union. He said he plans to file a formal grievance unless Nelson lets him return to school with his long hair.

"I'd be much more comfortable with shorter hair, but it's difficult for the kids to relate to teachers as it is," Ashmall said in an interview.

"In fact, if Mr. Nelson hadn't said anything about it, I'd probably have gotten it cut in another week or so. But I'm not going to now."

"There are other teachers with longer hair than mine. As a matter of fact, they haven't even sent students home for long hair as far as I know."

Ashmall continued, "If Mr. Nelson says I'm suspended because of my long hair, I have to believe him, but I think there are ulterior motives behind it."

But Nelson maintains the only problem is the hair which curls around Ashmall's ears and touches his collar.

## Killed In Vietnam

WASHINGTON (AP) — Army Pfc. Paul Q. Etter of Ann Arbor was one of 18 servicemen killed in action recently in Vietnam, the Defense Department announced Tuesday.

He was the son of Mrs. and Mr. Lester F. Etter.

## Nixon Suggests Time Near For Nuclear Treaty

NEW YORK (AP) — President-elect Nixon is said by a U.S. diplomat to have suggested he may soon signal that he believes the time has come for the Senate to approve a treaty to control the spread of nuclear weapons.

But officially, the Nixon position is unchanged—and vague.

U.S. disarmament negotiator William C. Foster was quoted Tuesday as saying Nixon had told him the time may shortly be ripe for American action to ratify the treaty.

Foster made that comment to a newsman after Nixon visited the United Nations and chatted with U.S. and foreign diplomats at a half-hour reception.

The American negotiator was quoted as saying he found the Nixon view encouraging.

But he also relayed word that Nixon was not committing himself now to any timetable for action.

Foster told one of the few reporters permitted to attend the U.N. reception, that Nixon had said the time may or may not be right for action now or in the immediate future.

One ranking American diplomat, who asked that his name not be used, said he doubted whether there could be action on the treaty before President Johnson leaves office and Nixon takes over on Jan. 20.

During his presidential campaign, Nixon said U.S. ratification of the treaty should be delayed because of the Soviet invasion of Czechoslovakia. He endorsed terms of the treaty.

## Johnson Enters Hospital Today

WASHINGTON (AP) — President Johnson entered Bethesda Naval Hospital today for treatment of what a White House spokesman described as a chest cold and low grade fever.

Presidential press secretary George Christian said Johnson had "a low grade fever which has developed into a chest cold" and was going to the hospital on the advice of his physician, Dr. George Burkley.

## Guards Adding Night Scopes To Arsenal

WASHINGTON (AP) — A device used to pinpoint enemy snipers during night fighting in Vietnam has been added to the weapons provided the National Guard for possible use against rioters in the United States.

One hundred of the devices, called Starlight Scopes, are being stockpiled at key depots for use by state National Guard chiefs, if needed.

Sources said the scopes probably would be brought into play against snipers firing on guardsmen or police from the darkness during night civil disorders.

The National Guard Bureau has notified adjutant generals that the Starlight Scopes will be earmarked for them in depots at Tobyhanna, Pa., Lexington, Ky., and Sacramento, Calif.

Provision of the scopes is the latest action taken by the Army to prepare the National Guard, police and its own forces for possible widespread civil disturbances in the United States.

About 9,000 copies of each city map are being printed, showing location of key installations and facilities.

THIS IS THE INSIGNIA of the Apollo 8 lunar orbit mission which is scheduled to begin Saturday. It shows a figure eight encircling both the earth and the moon. Manning the spacecraft will be Frank Borman, commander; James Lovell Jr., command module pilot and William A. Anders, lunar module pilot.

# Fed'l Reserve Board Makes Credit Stiffer

MAYOR ORVILLE HUBBARD of Dearborn, Mich., installed a time clock outside of his office, then started punching in and punching out. Soon more than 20 of Hubbard's aides, including some making more than \$20,000 a year, were using the clock. Here punching in is George H. Von Drak, director of sanitation. Others with cards are John B. O'Reilly, left, chief of police; and Chester E. Swanger, fire chief. Most of Hubbard's entries on his card show him arriving before 8 a. m. and leaving generally around 10 p. m. (AP Wirephoto)

## Interest Rates Hiked To Stop Inflation Trend

WASHINGTON (AP) — The Federal Reserve Board has moved to establish stiffer credit in an effort to offset the current inflationary trend plaguing the nation's economy.

With economic barometers reporting the economy still running too fast the board announced Tuesday the interest rate charged by Federal Reserve district banks on loans to their member banks is going up from 5 1/4 per cent to 5 1/2 per cent.

The move is calculated to discourage the present high level of borrowing by making it more costly.

The board said it wants "to foster financial conditions conducive to the reduction of inflationary pressures, with a view toward encouraging a more sustainable rate of economic expansion and attaining reasonable equilibrium in the country's balance of payments."

### Effective Today

The new discount rate, takes effect today in 8 of the 12 Federal Reserve districts.

Since directors of the Federal Reserve banks in St. Louis, Kansas City and San Francisco didn't join their counterparts in the other districts in asking a rate increase, they will continue using the 5 1/4 per cent rate. Observers expected uniformity throughout the system in a matter of days, however.

The board's action Tuesday reverses a decision made last August when it ordered the interest discount rate lowered from 5 1/2 per cent to 5 1/4 per cent.

The board said then the reduction was needed because the 5 1/2 per cent figure was a "crisis" rate that would have had psychological effects on the economy if it stood too long.

Tuesday's announcement didn't indicate how long the return to the 5 1/2 per cent rate might last.

### Boost Expected

Many bankers and economists praised the interest rate boost, although they said it was expected.

Dr. Saul Klamman, vice president and chief economist of the National Association of Mutual Savings Banks, analyzed the rate cut this way:

"If the discount rate is short-lived, and my own view is that it will be, then mortgage rates will rise temporarily, choke off further economic expansion and dampen inflationary expectations."

Some observers expressed doubts, however, about the effect of the Reserve Board's action.

"Unless this increase is an indication the Federal Reserve Board is getting tougher, this thing won't work," said Walter Klein of the Associated Industries of Massachusetts.

### Personal Income Up

Other developments, reported Tuesday, providing a backdrop for the Federal Reserve policy change included:

—Another rise in the industrial production index, indicating the output of the nation's industries rose in November to 167.4 on a scale that pegs output in the 1957-59 base period at 100. The rise in one month was the strongest since May.

—Personal income still climbing, though at a slower rate than a few months ago. Wages and salaries, which account for two-thirds of personal income from all sources, were up 9 1/2 per cent in the first 11 months of the year.

—A 7 per cent spurt in housing starts in November, mainly in the South. But housing industry spokesmen fear the onset of a tight money period would cut deeply into available funds for mortgages.

## Federal Agents Still Seek Kidnaping Clues

ATLANTA, GA. (AP) — Where is Barbara Jane Mackle? That question went unanswered today as federal agents led a nationwide search for the 20-year-old coed kidnaped from her sickbed at a motel near the Emory University campus.

The whereabouts of her multimillionaire parents was not known publicly, as officials — both local and federal — refused comment on the case.

The girl's mother, Mrs. Robert F. Mackle of Coral Gables, Fla., told De Kalb County police that Barbara was kidnaped about 4 a. m. Tuesday by a young gunman and boy accomplice, about 12.

Mrs. Mackle said she was held at gunpoint, chloroformed and then tied up by the boy while the daughter was taken from the room in freezing weather in her nightgown.

No Leads Reported

Mr. and Mrs. Mackle, members of a nationally prominent land development family, were last seen about 16 hours after the abduction was reported. Accompanied by FBI agents, the Mackles were riding in a car about the terminal area of the Atlanta airport.

"I don't think there's any reason to think anything will happen in the next few hours," said a De Kalb police captain wearing as the first 24 hours of the investigation drew to a close.

Neither police nor federal agents reported any leads in the case.

An Emory official said Barbara had been ill with the flu or a similar ailment for several days and had been staying with her mother at the motel in northeast Atlanta.

The father, secretary-treasurer of Deltona Corp., a \$65-million homebuilding business in Miami, entered Mrs. Mackle's motel room with another man about 5:30 p. m. Tuesday. The couple left the motel at 7:12 p. m. and drove to the airport.

An FBI agent, Jack Keith, said the couple would spend the night where they could get "some rest, a little peace and quiet."

Told What To Do

Mackle, 56, and his brothers, Frank Jr. and Elliott, pioneered the building of large, pre-planned communities in Florida.

The Mackles have a number of real estate holdings, including the Key Biscayne hotel, a long-time favorite hideaway of President-elect Nixon.

Police said they had no ransom note. But Detective Capt. J. L. Smith said Mrs. Mackle was "told what to do."

Classmates of the dark-haired, willowy coed refused, for the most part, to discuss the case. "It won't do any good," one girl said. "I'd really prefer not to talk about it."

Former classmates at Everglades School for Girls in Miami's Coconut Grove section recall Barbara as a shy, studious girl who was "very warm when you got to know her."

The missing girl, who is 5-foot-10 and weighs 120 pounds, was president of her senior class and valedictorian.

## Ban History Text At Battle Creek

DETROIT (AP) — The Michigan Civil Rights Commission has been advised that an American history textbook which allegedly slights minority groups will not be used in Battle Creek schools.

A complaint about the textbook — "Your America" by Vivienne Anderson and Laura Sufelt — had been made to the commission by Edmund Morris, father of a Battle Creek junior high school pupil.

Morris objected to what he said was cursory treatment of the Negro role in American history.

Narry R. Davidson, Battle Creek school superintendent, advised the commission Monday that the book had not been found to meet requirements of state law that textbooks include fair recognition of the achievements and accomplishments of ethnic and racial groups.

Hotel rooms are available only on a cash-in-advance basis and must be taken for at least four days. There will be no refunds after Jan. 5.

The afternoon of Jan. 18 features a "reception for distinguished ladies" — by invitation only — which appears to be free except for the clothing required.

In the evening comes "The Inaugural All-American Gala," seats for which range in price from \$10 to \$100. A box seating 10 people can be had for a mere \$1,000.

Morman Choir

The next day brings a reception honoring Vice President-elect and Mrs. Spiro Agnew. For admission, bring \$10 and a special invitation.

Sunday night, Jan. 19, offers the inaugural concert, with tickets ranging from \$5 to \$35. Of special interest to Gov. George Romney — Nixon's secretary of Housing and Urban Development — the concert will feature the Mormon Tabernacle Choir.

Following the Jan. 20 inauguration comes the inauguration parade, which unlike most parades is not open to the public. Tickets range from \$4 for the lowbrows to \$25 for a seat in a box opposite the Presidential reviewing stand.

Michigan Float

Admission to one of the six inaugural balls is \$35 per person. A limited number of boxes which seat eight persons are available for only \$1,000 each.

For another \$10, one can buy a special souvenir license plate which Mrs. Peterson says can be used in place of a regular Michigan license plate during the month of January. Medallions and other souvenirs also will be for sale.

Whether Michigan will have a float in the parade still isn't known. Mrs. Peterson said the state GOP has submitted plans for the approval of the National Inaugural Committee.

"The instructions for it are about three inches thick," she said, "so if we get through all that, it'll really be something."

Today's Chuckle

"With my luck," said the old-timer, "if I died and came back as a dog, my wife would come back as a flea."

## Weather

ESCANABA AND VICINITY — Cloudy with some chance of light snow late this afternoon or evening. High today near 32. Occasional light snow likely tonight and Thursday. Low tonight near 26. High Thursday near 30. The high temperature yesterday was 32 and the overnight low was 17. Friday's outlook is for colder with chance of snow or snow flurries. Winds east to northeast 5 to 15 mph today and 8 to 15 mph tonight. Precipitation probabilities: today, 40%; tonight and Thursday, 80%.

Upper Peninsula — Cloudy with a chance of some light snow this afternoon. Highs 27 to 36. Cloudy with occasional light snow likely tonight and not as cold. Lows in the 20s. Thursday: Cloudy with occasional light snow and little temperature change.

Sun sets today at 4:05 p. m. and rises Thursday at 7:25 a. m.

# Timber Project Ready To Begin U.P. Operations

Timber cutting in the Upper Peninsula by Upper Great Lakes Timber, Inc., a federally-financed demonstration project, will get underway in January.

Purpose of the project, according to Edward Locke, general manager, is to "collect all production and cost data related to timber harvesting and by comparing alternative methods come up with a more economical means of doing it."

Locke, who is a graduate of the forestry school at the University of Michigan, spoke to the Escanaba Lions Club about the project Monday night.

"We hope to stimulate the timber industry through demonstration projects on logging," Locke said. "We also hope to improve present marketing practice."

**To Use Machine**

The basis for harvesting in the project will be a timber harvester, one of five such machines built in Minnesota. The machine, Locke said, is capable of cutting a tree, limbing it, bucking it and piling it with one man sitting in the cab.

The harvester also can be easily used as a processor with trees cut down by a man with a power saw.

Initially, Locke reported, Great Lakes Timber will employ a five man crew, one cutting, one skidding and one operating the harvester. There also will be a two-man short wood crew, plus a logging manager.

This winter, he said, the crew will probably move back and forth in the area between Escanaba and Iron Mountain. In the summer, work will concentrate in Marquette County.

"After that, we want to start working in Lower Michigan" he added.

**Work On Costs**

As part of the project, Locke said, the corporation wants to get down to the basics of logging costs.

He pointed out that current logging practice involves payment of woods workers getting paid by the stick, the number of logs produced. By this method, Locke continued, there is no opportunity outside of the size of a stick for the owner to reduce his cost per cord.

The project hopes to experiment with a short-wood crew being paid so much per day, plus so much per stick.

"This will give men some security, plus some incentive," he continued, "and though this we hope to cut labor costs."

Locke also said he hopes workman's compensation costs can be reduced further. Compensation costs in Michigan are now down to about \$20 per \$100 payroll from \$27, but he hoped they could be reduced further to about \$10. The Wisconsin rate is \$9.80.

One way to do this, he explained, is through better woods safety and fewer accidents.

The first logging safety code is being written now, he said.

The demonstration project plans call for a minimum of three years operation and a maximum of five. Financing is provided by the federal government through the Michigan Dept. of Commerce.

SANTA VISITED the Rotary Club's children's luncheon party at the House of Ludington Tuesday noon and presented the youngsters with gifts. Debbie Desmond received a doll as a gift. With her is Mrs. Wesley (June) Hanson, visiting teacher for the Intermediate School District. Children from the Lemmer School special rooms and the Kennedy School and teachers were guests of Rotary. (Daily Press Photo)

## Motorist Runs Off Road After Chase At 110 MPH

James Couillard, 29, of Bark River Rte. 1, and a passenger, James Englund, Bark River Rte. 1, suffered minor injuries when the car driven by Couillard ran off M 35 while it was being pursued by Escanaba police at 1:40 a. m. today.

Couillard posted a bond of \$50 for his appearance in Municipal Court to answer to a charge of reckless driving.

Escanaba police said they began the pursuit on S. 23rd St. and that Couillard refused to halt, speeding up to 110 miles an hour in effort to escape. Four-tenths of a mile past the city limits on M 35 his car skidded off the roadway and struck some trees.

Officers said skid marks showed for 202 feet on the roadway and the car continued for 315 feet more before coming to a halt.

When Lord Byron swam the Hellespont, he was emulating Leander, who used to swim it at night to visit Hero, the priestess.

## Rotary Hosts Handicapped

The Rotary Club of Escanaba was host to handicapped youngsters and their teachers of the area at its annual Christmas luncheon Tuesday noon at the House of Ludington, an event marked by the appearance of Santa Claus and the distribution of gifts.

Thomas Straebel, Rotary vice president, conducted the meeting, and Luther M. Barrett, superintendent of the Escanaba Area Public Schools, presented the teachers and school officials who with the students enjoyed the traditional holiday celebration.

Children from the special rooms of the John A. Lemmer School and from the John F. Kennedy School were present and were greeted individually by Santa and presented with a gift.

Howard Dufour, who is soon to retire, was honored for his 18 years of service to the handicapped. He is driver of the Rotary station wagon which provides transportation for the children who need this special service to attend school.

Introduced were Miss Susan Diehm, speech correctionist; Mrs. W. Kammerer, teacher, ungraded; Miss Anita Kotila, school nurse; Mrs. Jean Yanitsky, orthopedic aide; Dave Dahlquist, teacher, orthopedic; Clarence E. Moore, physical therapist; Paul Vardigan, teacher, oral deaf; and Henry Wylie, director of Rotary Camp Harstad.

Walter McClintock, superintendent, Intermediate School District; and Mrs. Wesley (June) Hanson, visiting teacher for the Intermediate School District.

From the Kennedy School were the pupils and teachers Mrs. Karen Artley and Mrs. Lois Zimmerman, with Mrs. Lynda Carlson assisting with the children.

## Danforth

The Danforth Soo Hill Home Extension group held their annual Christmas party last evening at the Wells Township Hall. Games were played and prizes awarded. The guest prize was presented to Mrs. Israel Marenger.

A potluck lunch was served followed by a gift exchange. Several guests were present. The next meeting will be held Jan. 27 at the home of Mrs. Stephen Maziarz.

## Briefly Told

Elks Stag Nite will be held Thursday, December 19, with steak being served from 6 p. m. on. Raffle drawing will also be held.

# GOP Committee Elects Dubbelde

Henry H. Dubbelde of Escanaba was elected chairman of the Executive Committee of the Delta County Republican party at a meeting at party headquarters Monday night.

Dubbelde succeeds Arthur Neiman of Escanaba, who served four years in the post. Mrs. Henry (Betty) VonBlaskewicz of Gladstone, is capable chairwoman, succeeding Mrs. Harold (Nina) Johnson of Escanaba.

Other officers reelected were Mary Woodard of Escanaba, secretary; Jack Tackman of Gladstone, treasurer, and Forrest Henslee of Escanaba, finance chairman.

The new officers pledged themselves to work to maintain momentum gained by the party in Delta County. Neiman said he was gratified with results

## Living Pets May Be Wrong Gift

Planning to delight a child this Christmas by giving him a dog or cat? The pet may not be the delight you intended, suggests the Animal Protection Institute, a national humane organization based in Sacramento, Calif.

This advice was offered by Belton P. Mouras, institute president, in asking shoppers this Christmas to consider some pros and cons of animal gifts.

He said that in favor of giving pet is the universal fondness children have for animals. Almost any boy or girl would welcome a pet with open arms. And much psychological good can come of a child's relationship with his pet.

Mouras cited recent remarkable recoveries among emotionally disturbed children through

"pet therapy". A child's natural attachment for a small living creature kindles empathy and tenderness. With a pet, a child can express affection without fear of embarrassment. Finally the child can learn responsibility by attending to his pet's grooming and feeding.

"But," warned Mouras, a new pet in a family can also cause unforeseen problems. Parents may not like the idea at all. A pet, especially a puppy or kitten, can require more care than the child alone can give."

Mouras cautioned against giving pets which would create a financial burden. He cited an average cost of \$150 per year to care for a city dog.

"Make certain," he said, "that the animal you give is healthy and has had all necessary shots. A puppy or kitten that dies soon after Christmas is a heartbreaking experience for any child. Furry or feathered pets may also cause children who are known to have allergies, severe illness; and separating the pet from a newly-found home can be emotionally damaging to both child and pet."

If you give a pet, Mouras recommends the child be over age six. For smaller operations, he suggests a turtle, fish or canary might be better suited than a cat or dog. And, he added, let the child pick out his own pet, if at all possible.

If you choose to give a female dog or cat, Mouras recommends that you have her spayed. She will make a better pet, be happier and will be less apt to wander. And most important from the humane standpoint, Mouras explained, she will not be adding to the millions of unwanted puppies and kittens who must be put to death each year.

## Stop Prostitution; Less Robberies

GRAND RAPIDS (AP) — A sharp decline in robberies in Grand Rapids has been attributed "to the steam we have been putting on prostitution," says Police Chief William A. Johnson.

Latest FBI figures show 185 robberies have been committed in the city during the first nine months of this year, compared with 268 one year ago.

Johnson says he believes the crackdown on prostitution last spring was instrumental in keeping the number of robberies down.

But on the negative side, rape cases went from 23 to 35 this year, aggravated assault incidents jumped from 192 to 294 and burglary cases rose from 2,175 to 2,213.

## Over \$36,000 Collected

# Delta United Services Winding Up Campaign

The Delta United Services appeal, launched over two months ago at a "Kickoff Breakfast" at Marco's, is winding its way toward completion.

"For all practical purposes the drive is over," said Thomas Straebel, president of the Board of Directors.

Ernest Olivares, campaign chairman, agreed.

"There is still some money coming in and there will be for several months," he said, "but it's about finished."

To date, pledges and cash totaling \$36,156.65 have been received, Straebel reported. This represents only about 55 per cent of the announced \$65,000 goal, but is a more respectable 80 per cent of collections from previous years' drives.

**Apathy Cited**

More contributions, both in the form of additional reports from drive leaders and from individuals, give campaign officials hope that the 1968 drive will at least match the previous efforts.

"We do expect we'll realize about the same as in recent years," Straebel added, "but this is still far short of the \$65,000 goal."

When the campaign began, campaign workers hoped to "blitz" the community in a concentrated two-week effort, but somewhere along the line drive workers bogged down, businessmen and individuals were slow in responses, deer season forced a two-week hold and December rolled around.

The biggest problem in running the campaign, Straebel and Olivares agreed, is apathy that exists in the county toward the campaign.

"A United Fund drive never succeeds completely until the leaders of business support it fully and enthusiastically," Straebel said.

Organizational problems also have contributed to the slowness in completion.

Olivares pointed out that many individuals have expended considerable time and effort working on the drive, but others haven't reached that point, either through lack of time, other business commitments or lack of enthusiasm.

**To Review Contacts**

"Some people in Delta County haven't been contacted at all," Straebel admitted. "We wish they would seek a pledge card or mail in a contribution or a pledge."

He pointed out that residents in some of the townships may not have been reached and indicated that there is a possibility that even some local businesses haven't been contacted.

"We plan a review of the

campaign, however, and will try to contact those places who haven't been approached," Straebel said.

Olivares pointed out another problem — people aren't prompt either in turning in contributions or in making them.

"We'll get money coming in over the next several months," he explained. "Of the letters we sent out, some people will hold their contributions until practically New Year's Eve for tax purposes. They wait until then to see what they can afford to give."

## Viau Jailed For Assault

Richard Viau, 18, of Old State Road, pleaded guilty in Municipal Court today to a charge of assault and battery and was sentenced to the Delta County jail for 90 days.

Escanaba police arrested Viau after he struck and injured Steven Breault of Escanaba with a beer bottle at 11:30 p.m. Dec. 14. Breault suffered cuts on his face, cheek and nose and 10 stitches were required to close the wounds.

## Lions Club Plans Annual Pancake Supper

The Bark River Lions Club met for a dinner meeting at Tom Swift's Monday evening. H. W. Boyle led the group singing with castanet accompaniment by Joseph Langlois.

Announcement was made that Ben Douglas underwent surgery Monday at Rochester, Minn.

The Community Christmas Tree committee was appointed with Stanley Meyers as chairman. Assisting him will be Leslie Sundquist, Leo Knauf and Joseph Langlois.

Ray Raymond said that a mixed bowling event for this zone will be held on Jan. 18, 1969 at the Bowl-A-Rama, in Escanaba.

The annual pancake supper will be held Sunday, Jan. 26, at the Town Hall in Bark River. Ray Raymond was appointed chairman and Philip Norman and Paul DeBen will be the cooks.

**"CHARGE IT" AT KRESGE'S "CHARGE IT" AT KRESGE'S**

NEW ST. STEPHEN'S Episcopal Church will hold its first services at 8 and 10 a. m. Sunday, Dec. 22, said the Rev. Ben F. Helmer, rector. Holy Communion will be celebrated at both times. The building will be officially dedicated

Thursday with special service at 4:30 p. m. by the Rt. Rev. George R. Selway, D. D., Bishop of the Episcopal Diocese of Northern Michigan. (Daily Press Photo)

# UPCAP Asking To Drop Michigan Job Program

By JEAN WORTH  
UPCAP (Upper Peninsula Committee For Area Progress) today asked the U. S. Department of Labor to relieve it of any contractual responsibility in the recently federally funded Northern Michigan Rural Employment Program.

UPCAP and NORCAP, a similar economic development and technical assistance agency serving the northern part of the Lower Peninsula, were co-sponsoring the program, which

earlier had been suggested for sponsorship by the Michigan Employment Security Commission and other agencies.

### Service Needed

The sponsorship went to NORCAP and its partner, UPCAP, because Charles Moskowitz, Mount Pleasant oil man and former member of the board of control of Michigan Tech at Houghton, got several million dollars from Washington to fund the program. Moskowitz is a friend of Vice

President Hubert Humphrey. The letter on withdrawal written by Harold L. Dettman, St. Ignace, chairman of UPCAP, to Lewis Nicolini, regional manpower administrator for the U. S. Department of Labor in Chicago, stated:

"Action in direct violation of the contract existing between the sponsor and the U. S. Department of Labor and questionable personnel appointment procedures being followed by the sponsor of the project, regrettably makes this request necessary."

"We regret that this request has to be made because of the immense need of the people of the Upper Peninsula for the services that could be rendered by an effective CEP program. However, to continue our association with the current program would result in public embarrassment for our organization."

### On Payroll?

Directors of UPCAP were reluctant to talk about its divorce from NORCAP in the rural employment program, but indicated that Moskowitz was running the show for NORCAP, not consulting with UPCAP nor even informing it of his actions. The resulting situation left UPCAP responsible for a program over which it had no control.

Sanford Brown of Petoskey, the former Democratic state treasurer whose job was wiped out by constitutional reform of the Michigan state government,

has been named head of the rural employment program at a salary reported to be \$20,000 a year. Defeated Democratic Congressman Billie Farnum was also reported offered a consulting job at \$12,000 a year, but at last report this appears not to have jelled.

The CEP program is a Concentrated Employment Program in which workers interview unemployed persons in depth, find out what the impediments are that keep them from employment and supply a remedy. It may be dental work, general health tune-up, cure of alcoholism, teaching of a job skill or other things.

The CEP project operated last year in the U. P. with what workers regarded as success and it was expanded this year from 3 to 10 U. P. counties.

### No Alternative

William J. James, former law partner of ex-Congressman Raymond Clevenger at Sault Ste. Marie and an official of the North Michigan CEP wrote his resignation recently to Sanford Brown.

James said he found the program stimulating when he entered it in August, 1967, but that events of the last month or two had left him no alternative but to resign if he wished to keep his personal integrity. He said that the program, after being funded for six weeks for a 10 month program is less able to operate than at the time of funding.

UPCAP officials expressed

## Mrs. Carlson, Cornell, Dies

Mrs. Axel (Alma C.) Carlson, 77, of Rte. 1 Cornell died early Wednesday morning at St. Francis Hospital where she had been a patient for five weeks.

She was born May 12, 1891 in Sweden and was a member of the Salvation Army.

Survivors include her husband; one daughter, Mrs. Hjalmar (Vernette) Olson of Cornell, 10 grandchildren and 26 great grandchildren; three brothers, Courtney, Algot and Elmer Grundstrom, all of Minneapolis, Minn.; three sisters, Mrs. Henry Walstrom of Minneapolis, Mrs. John Papastrolou of Brainerd, Minn., and Mrs. Joseph Burns of Fort Meyers, Fla.

Complete funeral services will be conducted at 11 a.m. Friday at the Anderson Funeral Home with Major Orville Butts officiating. Burial will be in Gardens of Rest Cemetery. Friends may call after 4 p.m. Thursday at the funeral home.

## Earl Eisenhower Dies In Arizona

SCOTTSDALE, Ariz. (AP)—Earl Eisenhower, 70, brother of former President Dwight Eisenhower, died early today at his home in Scottsdale.

Eisenhower, a former electrical engineer with the West Penn Power Co. of Pennsylvania, later went into public relations and was elected to several terms in the Illinois legislature.

He retired to Scottsdale, near Phoenix, in 1966, after running unsuccessfully for Cook County Clerk in Chicago.

The next youngest brother of the former president, Eisenhower is survived by his widow Katherine, a son, Earl Jr., and a daughter, Mrs. Kay Morgan of Rockford, Ill.

The son said his father had not been in ill health, and referred newsmen to his physician for the cause of death.

### Briefly Told

Cub Scout Pack 430 of Ford River will hold their Christmas party Thursday night at the Lions Club at 7. Parents and families are urged to attend.

The Hyde Kings and Queens will have their annual Christmas party on Thursday, Dec. 19, at the Ford River Town Hall from 7 to 9 o'clock. Games will be played and prizes awarded. Lunch will be served and gifts exchanged.

hope that the Department of Labor would scrub up the project and start over because the program is one much needed in Northern Michigan and capable of substantial aid to the unemployed so that they can be made self-sufficient.

## New Purity Period

It was only a couple generations ago that a woodsman would stoop and drink from a forest stream in the Upper Peninsula with no fear that he'd be poisoned.

We may not be headed back to that pristine state of purity in our waters, but we're certainly headed toward a correction of the worst examples of pollution that exist now.

The \$335 million state bond issue for pure water approved in the Nov. 5 referendum launches Michigan on an unprecedented attack on the problem created by the disposal of wastes from modern living and manufacturing.

There will be many millions of dollars worth of sewerage construction projects in the Upper Peninsula. Hardly a major city will be without a project to upgrade or expand its sewage plant. The result of this huge expenditure of public funds in a crash program to curb pollution will be a much cleaner effluent discharged from our sewage plants back into the public waters. From having removed sewage solids in simple treatments, the plants will now provide secondary treatment and will remove the chemicals which fertilize algae and other water growths and transform our lakes from clear water bodies into sloughs clogged with dank vegetation.

That our people of Michigan have had the wisdom to vote these millions to remedy this growing spoliation of nature is a great human achievement. It required first a knowledge of the serious degree to which pollution has progressed, and then a willingness to spend a lot of money to correct the spoilage.

The money from the bond issue is expected to become available as early as next spring. The projects on which it will be spent have been planned and their costs totaled. The figure of \$335 million which the state will contribute is only a part of the total financing. The federal government and local governments will also share the financing of 210 new Michigan sewage treatment facilities, improvements to 126 existing plants and sewers for 3.5 million people now lacking them.

This is a basic contribution to the health and quality of living in Michigan. Community attraction and esthetics are built only upon this foundation.

The Michigan Water Resources Commission is telling communities to complete preliminary plans for their construction in 1969, requiring firm plans by 1970, contract awards in 1971 and completion of projects in 1972.

We are learning how to live with dense population, and who would have thought that even in the Upper Peninsula, with its famed wide open spaces and small population, that there would be a serious problem?

## Rapid Transit

Those who wonder how the federal government ever got so involved in local affairs and who think it ought to get the heck out might devote a little study to the history of Cleveland's airport rapid transit.

That city has just become the first in the Western Hemisphere to provide a public rail link-up between its major airport and its downtown.

Cleveland Transit System authorities are confident the new line will add some 1 1/2 million patrons a year, who will invest 35 cents and 20 minutes for the ride to and from the airport instead of the \$1.60 to \$5 and one hour involved in taking limousines and taxis.

Air-conditioned, stainless steel cars with baggage racks service the 19-mile route. Eventually, airline passengers flying out of Cleveland may be able to check their baggage at the STC downtown terminal and forget about it until they arrive at the airport of their destination. In one city, at least, no one can complain more that "it took me longer to get from the airport to downtown than it did to fly halfway across the country."

Everyone in Cleveland is proud and enthusiastic about the city's new distinction. It was not thus eight years ago, however, when it was first suggested that an existing 15-mile line on the west side be extended another four miles to the airport.

At that time, cost of the extension was estimated at \$5 million, to be paid for out of farebox revenues. City and county voters indicated at the polls their willingness to tax themselves to construct free parking lots at stops along the route and bridges along the right of way.

But the CTS board vetoed the idea as "too costly and impractical." Debate dragged on for four years — while costs rose until Congress passed the Mass Transit Act in 1964.

"Suddenly," as one newspaper noted, "those who acted to block the Rapid in the name of poverty and practicality for so long now became the most optimistic and enthusiastic supporters."

Cleveland became the first city to apply for a federal grant under the act and in 1966 the first showoff of dirt was turned.

Today, the Rapid stands completed at a cost of \$18.6 million, two-thirds of which is represented by federal funds — or, more accurately, by money contributed by taxpayers in all the 50 states.

## BARBS By PHIL PASTORET

Instead of having a Christmas party this year, everyone is going to get angry at everyone else before noon, and then we'll all go home early.

We have no quarrel with television dinners unless they're served in restaurants under the guise of "fresh from the broiler" items.

To explain Santa to a hippie, just tell him that Mr. Whiskers' bag is toys, man!

Our yule wish for the people who sign their cards "Mary and Bill" is that during the new year they learn to write their last names.

"You're Polite; You Never Lose Your Cool;  
You Enforce the Law With a Firm  
But Gentle Hand!"

## Fine Legislative Record, Says Wilderness Society

# Congress Lauded On Conservation

WASHINGTON, D. C. — Failure to enact important measures to protect endangered wildlife species, improve the quality of the nation's water supplies, establish the Sleeping Bear Dunes and Apostle Islands National Lakeshores, and designate more wilderness areas cast only a small shadow on the outstanding conservation record of the recently adjourned 90th Congress, says Stewart M. Brandborg, executive director of the Wilderness Society.

"The 90th Congress could well be remembered as the Wilderness Congress," he suggested, noting that it not only added five new areas to the National Wilderness Preservation System but that it also established both a National Wild and Scenic Rivers System which includes a wilderness-like "wild river" category and a National System of Recreational and Scenic Trails which will link together by designated and protected trails the present and future wilderness areas along the Appalachian and Cascade-Sierra crests.

"The Redwood National Park Act just signed by the President provides permanent protection for a 58,000-acre redwood forest — not just isolated groves, but an entire natural community of plant and animal life," Brandborg pointed out, "and the recently-enacted measure establishing the half-million-acre North Cascades National Park in Washington State also establishes the half-million-acre Pasayten Wilderness Area and provides for the submission to Congress within two years of wilderness recommendations for the North Cascades National Park and for the new Ross Lake and Lake Chelan National Recreation Areas as well."

## AFL-CIO Will Boycott ICFTU

WASHINGTON (AP) — AFL-CIO President George Meany has announced a boycott of the International Confederation of Free Trade Unions until it rejects membership to a new alliance including Walter Reuther's auto workers.

Meany told a news conference Monday he considers the Alliance for Labor Action, formed by the United Auto Workers and Teamsters Union which are both non-AFL-CIO members, a rival organization.

"We will take no part in any activities of the ICFTU whatsoever until this matter is disposed of," Meany said.

The AFL-CIO pays \$515,000 a year toward operation of the international organization which conducts programs of mutual interest to its labor organization members throughout most of the world.

Auto workers president Reuther withdrew his 1.6-million-member union from the AFL-CIO last summer after a long dispute with Meany over U.S. labor policy.

tional Recreation Areas as well."

"The Land and Water Conservation Fund, used for state and federal recreational land acquisition including the purchase of private inholdings within Forest Service and National Park Service wilderness areas, was enlarged to \$200 million a year for a five-year period, and the newly-established Biscayne National Monument in Florida offers a unique opportunity for the designation of underwater wilderness."

Brandborg also listed the new acts of congress authorizing a National Estuarine Areas System feasibility study, extending the stepped-up federal waterfowl wetlands acquisition program, and establishing the Flaming Gorge National Recreation Area in Utah and Wyoming as importantly related to the national program of wildlands preservation supported by wilderness conservationists.

"New laws protecting the Grand Canyon of the Colorado from dam construction, providing for an alternative to the proposed Hooker Dam in New Mexico which would flood part of the Gila Wilderness Area, deferring authorization of the Devil's Jump Dam on the scenic Big South Fork of the Cumberland River in Kentucky, requiring re-study of plans to flood the Red River Gorge in Kentucky, and withholding funds for Dickey Dam on the wild St. John River in Maine also are part of the conservation record of the 90th Congress, as are the Air Quality Act of 1967 and the National Water Commission Act," Brandborg said.

On the debit side of the ledger, he added, were "unfortunate" Congressional actions to all but kill the highway beautification program, to weaken the protection given important conservation areas against highway intrusions, to force unwanted freeways through parks and historic sites in the District of Columbia, and to authorize construction of the natural area-destroying Big Walnut Dam in Indiana.

"Some 50 proposals to designate new wilderness areas within the jurisdictions of the Forest Service, the National Park Service, and the Bureau of Sport Fisheries and Wildlife should be ready for Congressional consideration in 1969, and the action of the 90th Congress to 'clear the decks' of much of its backlog of conservation bills may make the wilderness-designation record of the 91st Congress even more outstanding," Brandborg predicted.

## Time Recount To End In January

LANSING (AP) — Statewide recounting on the Daylight Saving Time proposal, which began Tuesday in six counties, is expected to be completed by the end of January, said assistant elections director Bernard Apol.

The proposal suffered a 1,501 vote defeat in the Nov. 5 election. Counties undergoing initial recounts are: Muskegon, Saginaw, Calhoun, Lapeer, Genesee and St. Clair.

log of conservation bills may make the wilderness-designation record of the 91st Congress even more outstanding," Brandborg predicted.

In addition to the Pasayten Wilderness in Washington, the 90th Congress — with strong "grassroots" conservationists support — also established the San Rafael and San Gabriel Wilderness in California, the Mount Jefferson Wilderness in Oregon, and the Great Swamp Wilderness in New Jersey, bringing the total amount of wildland protected within the National Wilderness Preservation System to roughly 10 million acres.

## People, Events Of Yesteryears

From the Files of the Escanaba Daily Press  
25 Years Ago  
New Senior Class officers were announced today for the Manistique Central High School. They are: George Bays, president; Stanley Applegate, vice president; Joy Adams, secretary; and Mary Gorsche, treasurer.

Mrs. Rene Maskart entertained members of the "Y" club at a theater party. Before attending the theater, the club had its annual dinner party at the Ludington Hotel. Present were Mesdames Al Maskart, Louis Beck, Hector Berglund, Herbert Cornell and Robert Micheau. Mrs. Kenneth Gereau of Perkins was a guest of the club.

50 Years Ago  
Grant Hamm, a 19-year-old Escanaba boy, was one of the crew of the USS Texas which formed a part of the convoy that met President Wilson when he neared France.

Lt. L. F. Fridmodig, former Escanaba high school athletic coach and instructor, is visiting in this city while enroute to his home in Calumet.

The so-called fragment bid in one form or another should be used by every expert partnership.

Basically, the fragment bid shows a singleton in the bid suit or possibly even in some other suit and at the same time confirms strong support for partner.

North's four-club call is an example. He has tremendous heart support and visualizes a slam if South can take care of diamonds.

South has a frightful vulnerable heart overall and the fact that his partner has a singleton club does not interest him in a slam but the essence of good partnership is to assume partner will know everything that is going on. Therefore, South does bid four diamonds over his partner's four clubs to show first-round diamond control.

North's four no-trump is plain, old-fashioned, unvarnished Blackwood and South's five diamonds reveals one ace outside the diamond suit. Because he has already shown first-round diamond control, he would have bid five clubs had his only ace been in diamonds.

North proceeds to bid six hearts and, while South has some minor problems finding the safest way to play the heart slam, everything works nicely and he makes it.

When this hand was played in the trials, we regret to report that not one of the five North-South pairs reached the slam. Only one of them was playing this particular fragment bid and when North bid four clubs, South decided that his overall was so weak and his king of clubs obviously so useless that South merely bid four hearts and played it there.

We believe that the 1969 team will adopt the fragment bid for the World's Championship matches and, if a hand similar to this comes up, our team will reach the slam.

## CARD Sense

Q—The bidding has been:  
West North East South  
Pass 1♥ Pass 1NT  
Pass 2♥ Pass ?  
You, South, hold:  
J4 AKQ987 K53 AQ62  
What do you do now?  
A—Pass. Your partner has just shown a little strength including some hearts. Your opening bid is a minimum.

TODAY'S QUESTION  
Instead of bidding two hearts your partner raises you to two no-trump. What do you do now?

Answer Tomorrow

## Road Supervisor

LANSING (AP) — Ralph M. Merrill of Portland has been named highway planning supervisor in the State Highway Department's transportation and planning division. Merrill, formerly a highway planning technician, succeeds Dale R. Eacker of Grand Ledge, who resigned to become city planner at Daytona Beach, Fla.

## Ann Landers

# Child-Birth Alarms Young, Single Girl

Dear Ann Landers: I have an eight-year-old granddaughter who was severely burned when she was three-and-a-half years of age. The burns healed eventually, but her once beautiful little face is now badly disfigured and the skin is red and purple.

Whenever the child goes anywhere, people insist on staring. Some even gasp, as if the sight of her is revolting. I have been present when strangers have come up and asked, "What happened to the child?" All this within her hearing, mind you.

Can't they see that she met with an accident? Don't they realize it hurts us when she is singled out—and it hurts her, too.

Please, Ann, tell me what to say to these rude and thoughtless people. I can't find the words. — OREGON GRANDMA

Dear Oregon: The next time someone asks, "What happened to the child?" reply, "What possible interest could you, a stranger, have in the details?" And look the clod straight in the eye when you say it. He might learn something.

Dear Ann: I'm an average looking, hard working, fun loving, 21-year-old girl who has a great job. I live with two of the most wonderful people in the world, my parents.

I'm not thinking of getting married for at least five years, but something has been bothering me. I love children and I want a large family, but I don't want to have children. I want to adopt them.

Ever since I can remember I have been petrified of doctors. I hate pain. When anyone talks about giving blood I must excuse myself. I get physically ill.

It would be unfair to marry a man and not tell him how I feel about this. Yet I realize no normal male would agree to adopt a family if he could have his own. Please tell me what to do. Ann. — M. I. CONFUSED

Dear Friend: One of the strongest drives of all animals, including the human animal, is the drive to reproduce. An important element of romance

and married love is the desire to produce a child with the combined qualities and characteristics of yourself and your beloved. When fear eclipses the most basic of human drives, it indicates the presence of a severe psychological impediment.

I'm glad you don't plan to marry for at least five years. You are not ready for marriage and you won't be ready until you rid yourself of this crippling fear. Get professional help, girl.

Confidential to Sucker: You are not required to pay for the merchandise. You didn't request it. Return it—collect. There's no reason to be stuck with the postage either.

When romantic glances turn to warm embraces it is love or chemistry? Send for the booklet "Love Or Sex And How To Tell The Difference," by Ann Landers. Enclose a long, stamped, self-addressed envelope and 35c in coin with your request.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a long, self-addressed, stamped envelope.

© Publishers-Hall Syndicate

## Questions And Answers

Q—Who was the first man to swim the English Channel underwater?

A—The American frogman Fred Beldasare, July 11, 1962. He used aqualung equipment and was guided by a towed cage beneath the surface.

Q—Where is the famous Arkenwyke yew tree?

A—Runnymede, England. Under this tree the English barons compelled King John to seal the Magna Carta, the cornerstone of Anglo-Saxon liberties.

Q—What two African republics joined to form a single nation?

A—The republics of Tanganyika and Zanzibar, in April, 1964, to form the African republic of Tanzania.

## Mao Is Idolized In Textbooks

TOKYO (AP) — Chinese toddlers who once began their lessons with "a cat catches fish" are in for sterner political stuff.

Now the first textbook lesson is entitled "Long live Chairman Mao."

Dissatisfied with the old school books, peasants in one area of Honan Province have written their own, an example that is sure to be followed elsewhere.

Before doing so, according to the Peking People's Daily, they examined the standard textbooks which said: "School reopens. Taking our satchels, we go to school. When meeting our teacher, we bow to him. When seeing a schoolmate, we say hello to him."

Said the peasant committee—one of thousands now running the mainland's rural schools: "Proletarian politics was not put to the fore in any degree. 'A cat catches fish, a crow drinks water...' and other rubbish were included in the textbooks."

It was "black goods" peddled by disgraced President Liu Shao-chi.

The next step was glorification of the sayings of Chairman Mao Tse-tung.

"Each of Chairman Mao's words is truth," the committee said. "Quotations from Chairman Mao must be taken as the most fundamental teaching material."

Other lessons "aim at cultivating the students' loyalty to Chairman Mao, Mao Tse-tung's thought and Chairman Mao's proletarian revolutionary line."

## Santa and the Hippies

By LUCRECE BEALE

Synopsis: The Red Witch is a prisoner in the jaws of a monster. Ding Dong enters the jaws and plays a hippie record. When the monster opens his jaws in pain the Witch escapes and gives Ding Dong the red thread as a reward.

CHAPTER 14  
THE PURPLE WITCH  
DING DONG took the red thread back to the Butterfly Queen. Now they had two threads. One more was needed: the purple thread spun by the Purple Witch.

"That one," said the Butterfly Queen, "will be the hardest to get. It is the Purple Witch's most valued possession."

She told Ding Dong the Purple Witch read and studied all the time. The walls of her purple mansion were lined with books from floor to ceiling. Books spilled off the shelves into the kitchen, under the beds and up and down the stairs.

She read them all. She read so much her eyes had become tiny pinpoints. She had to wear five pairs of glasses at once to see at all. She read novels and Mother Goose and poetry and fairy stories and science and first grade readers. She had 47 sets of encyclopedias she had read from Aachen to Zynase. There was nothing she did not know.

She could tell you the natural resources of Tanganyika, how a crankshaft works and

The Purple Witch read and studied all the time

what an agouti is. She knew the chemical formula of a vanilla soda, where Nebuchadnezzar was buried and how the ancient Persians cut their fingernails. She could name all the Kings of England, discuss the Fourth Dimension and tell the difference between poison ivy and honeysuckle.

Her brain was so stuffed with all she knew that her head grew bigger and bigger. She looked like a stick with a purple balloon on top. It was impossible to find a hat to fit her.

"But the purple thread?" asked Ding Dong. "When does she spin the purple thread?"

"It is already woven," said the Butterfly Queen. "That is the trouble. She wove it especially to use as a book mark and she cannot read without it."

"Oh, dear," moaned Edgar the elk as he listened to the tale. "Suppose we cannot get it?"

"Then," said the Butterfly Queen sadly, "we cannot break the spell of Heseleah and Christmas will be no more."

Ding Dong opened the bag of gifts from the hippies and looked inside. He had used up the set of finger paints. He had used the record of hippie music. Three things remained: the popcorn popper, a handful of poems and the spinning top that was Santa Claus.

He sighed. He did not see how any of these things could

help him. Nevertheless, he tucked the bag under his arm and climbed once more into Santa's little plane and flew off to the Purple Witch's mansion.

When he arrived he found everyone sad and distraught. The Purple Witch was dying. It seems she had read every book in her library 10 times over and now she was dying for lack of something to read. She neither ate nor drank nor slept but sat all day staring at her hands because there was nothing new to read.

If the Purple Witch died all the assistant purple witches would die, too. Everyone in Purple Witchdom wept and wrung their hands and wondered what on earth to do.

They brought all their books to the Purple Witch but she had read them all. They sent off to world-famous universities and asked for their most unusual books. When they arrived it was no use. The Purple Witch had already read them.

"The situation is very serious," said the Witch Doctor gloomily. "She is growing weaker every day. The end is near."

Tomorrow: Hippie Poems

Drive-in theaters account for about 25 per cent of the total movie attendance in the United States, according to the Encyclopaedia Britannica.

## DOG LICENSE NOTICE

Dog licenses for the year 1969 are available at the City Treasurer's Office until March 1st at a cost of \$1.00 for male and spayed dogs and \$2.00 for female dogs. After March 1st, licenses must be procured at the County Treasurer's Office at double the cost.

Proof of vaccination within the last 30 months against rabies must be presented at the time of application.

Office hours: 9 A. M. to 5 P. M., except Saturday and Sunday.

Donald J. Guindon  
City Treasurer

# Michigan Drug Traffic Growing

LANSING (AP) — Drug traffic in Michigan continues to grow—with young people among the users—despite law enforcement efforts against it, the chairman of a special House Committee on Narcotics said Monday.

"Law enforcement alone is not successful in preventing illegal drug possession or sale, all of which are against the law," said Rep. Dale Warner, R-Eaton Rapids. "The state,

using traditional tactics, is not even maintaining a holding action in preventing drug usage."

Warner released preliminary results of a committee study that included interviews with some 1,400 Michigan high school students from 11 schools across the state. He declined to specify schools involved, but said one was private, the others public, and communities ranged in size from 2,500 to over 100,000.

**Legislation**

"We will definitely propose legislation concerning this problem," Warner said.

Among suggestions for legislation would be an attempt to provide "focus within state government for education and giving citizens help and information without going to the police agencies," Warner said.

Richard Bogg, a University of Michigan Consultant and coordinator of the study, said the survey showed a sizeable use of

cigarette and alcoholic beverages among the students interviewed and also considerable use of marijuana.

He emphasized, however, that the statistics were not sufficient to draw any definite conclusions on the amount of illegal use of drugs, cigarettes and alcohol among Michigan high school students.

**Marijuana**

Of the 1,379 students in the study, only two reported use of heroin (one or more times) while 112 reported use of marijuana (one or more times)," Bogg said in his report.

"Actual marijuana use ranges from 0 per cent to 3 per cent, being the lowest or nonexistent in rural areas and highest in urban areas," the report said.

"Four of the urban schools reported approximately 11 per cent usage."

Urban students, 3-7 per cent, had used such substances as

morning glory seeds, glue, diet pills, aspirin and cough medicines to get "high," the report added.

"Over two-thirds of the students (interviewed) consider marijuana as harmful to the mind and body, the remainder considering it harmless," the report said.

"Our data appear to support the thesis that drug use by young people, particularly use of marijuana, represents a social form of recreation far removed in nature from the traditional problem of narcotics addiction or alcoholism."

## ROME'S AQUEDUCTS

In the year A. D. 97, the nine aqueducts of Rome supplied the city with 30 million gallons of water a day within the walls and 20 million gallons outside the walls, according to the Encyclopaedia Britannica.

# Man Shoots 3, Slashes Throat

WHITTEMORE (AP)— Three persons were wounded in a wild shooting spree Tuesday, and the man blamed for it by authorities critically injured himself by slashing his throat.

Sheriff Ivan O'Farrell said Jack Reed, 47, of Union, Ore., was in critical condition and taken to a Bay City hospital to be held under police guard.

Wounded were Mrs. Margaret Bronson, 52, shot in the chest; Norma Williamson, 38, hit in the stomach, and Earl Bronson, who suffered superficial head and shoulder wounds.

Sheriff O'Farrell said Reed came to this Isosco County community of 460, about 15 miles inland from Saginaw Bay to see Leona Bronson, 33, whom the sheriff said Reed had known in Oregon for several years.

Upon his arrival at the home, Sheriff O'Farrell said members of the family told him Reed pulled a .38 caliber pistol and fired until it was empty.

Undersheriff Leon Putnam said he was told Reed then rushed upstairs and slashed his throat with a knife. Putnam said he found Reed there.

Apparently Reed was unable to locate Leona Bronson. The wounded Mrs. Bronson is Leona's mother; Miss Williamson, her cousin, and Earl, her brother.

The wounded were taken to a West Branch hospital where the women were reported in serious condition.

Sheriff O'Farrell said Leona Bronson recently returned to Whittemore, due west of Tawas City, bringing two children, aged 9 and 12, with her. The children were in school at the time of the shooting.

## OK Radio Station For Charlevoix

WASHINGTON (AP) — The Federal Communications Commission announced Tuesday it has set aside the grant of an application of New Broadcasting Corp. for a radio station in Charlevoix, Mich.

The commission said it had decided to set aside its action of Nov. 26 in order to inquire further into the control by W. Albert Schaller of several newspapers serving Charlevoix and neighboring communities.

Schaller is majority stockholder of New Broadcasting.

## Cancer Biggest Battle For Fleet Commander

SAIGON (AP) — Edwin W. Rosenberg refused to believe the doctors who told him 23 years ago he would die of cancer. Today, a rear admiral, he commands the 7th Fleet Amphibious Force in Vietnam.

A 1942 Annapolis graduate, Rosenberg was invalided out of the Navy in 1945 when doctors found cancer after his return from World War II duty as a navigator on an aircraft carrier.

Between 1946 and 1950 he survived four bouts with cancer even after doctors who found a growth in his kidney told him, "You've got two weeks to live."

"Let's get started with the X-ray treatment," he told doctors at Chelsea Navy hospital in Boston. The X-rays worked and the cancer was burned out.

His life saved, Rosenberg set about saving his career. Twice he convinced the Navy retirement board he was cured. However, each time the doctors found another cancer, in the groin for the second time and in the neck.

But Rosenberg, who from his boyhood in Sarpy County, Neb., had wanted to be a naval officer, did not give up. He continued with the X-ray treatments and kept fighting to get back into uniform.

By September 1948 he had talked the Navy into giving him temporary duty as an instructor at the Naval Academy. This was progress, but he was still on the retired list.

Rosenberg asked for active status again.

"Not a chance," he was told. "It would take an act of Congress."

He went after that act of Congress. Sen. Bourke B. Hickenlooper, R-Iowa, introduced the measure and in September 1950 President Harry S. Truman signed it.

In 1952 Rosenberg took command of his first ship, the destroyer J. Douglas Blackwood.

On Sunday, Rosenberg relieved Rear Adm. Paul L. Lacy Jr. as commander of the 7th Fleet unit. Rosenberg came to Vietnam from Honolulu where he was the Pacific Fleet's deputy chief of staff for logistics, personnel and administration.

Lacy goes to Washington to head a new department of submarine design.

Jackie Visits Ethel In Hospital

WASHINGTON (AP) — Jacqueline Onassis visited Ethel Kennedy in the hospital and went to the grave of her late husband, President John F. Kennedy, Tuesday.

Mrs. Onassis went to Georgetown University Hospital to visit her former sister in law, who gave birth last week to her 11th child. Hospital authorities said Mrs. Onassis saw the baby daughter of the late Sen. Robert F. Kennedy and commented, "She's very pretty."

Mrs. Onassis then drove to Arlington National Cemetery, where the late president and his brother are buried.

### Third Millage Try

LOWELL (AP) — A group of Lowell citizens is circulating petitions to place another 7-mill school bond issue on the ballot after two similar issues have been spurned by voters during the past five months.

The group, known as the Citizens for Better Education, met Monday and announced long-range plans for formation of a board to serve as a watchdog over the local school board.

David Miller, chairman of the citizens group, said some 1,500 signatures are required on the petition.

### Engstrom Home

LANSING (AP) — Retiring Rep. Arnell Engstrom, R-Traverse City, who suffered a mild heart attack two weeks ago in Honolulu, returns to Lansing today to continue recuperating, the house speaker's office said.

Engstrom, 71, did not seek reelection this year after completing his 14th two-year legislative term.

### Cabbie's Good Deed Pays Off

MINNEAPOLIS, Minn. (AP) — Cabbie Jim Newman's good turn to a stranger has brought him an early Christmas present — \$250 which will help him and his family take a holiday trip to California.

Newman was driving Morris Lewis, a grocery store operator from Indianola, Miss., to the airport last week when his passenger suffered a severe nose-bleed.

Newman took him to a doctor, then a clinic and promised to wait for Lewis and take care of his baggage. But Lewis had to stay overnight for treatment of a broken artery.

Lewis gave the receptionist a \$20 bill for Newman, and that was a \$15.05 tip above the fare.

Then came a phone call early this week from Lewis' wife, who thanked him for helping a stranger in trouble, and later a surprise \$250 check.

Newman said it was a smart move to get into the cab business a year ago, because, "I used to be a meatcutter, and I never made that kind of tip hacking at a rump roast."

### TEACHER WANTED

We are looking for teacher candidates to fill one early elementary vacancy the second semester. Candidate must be certified or certifiable.

## Holiday Musical Planned Sunday At Trenary

The Adult and Junior Choirs of the First Lutheran Church of Trenary with the Sunday School, will present, "Peace To Earth", a Christmas pageant with music on Dec. 22 at 7:30 p. m. in the First Lutheran Church.

The Christmas pageant will be supplemented with the singing of traditional Christmas carols and anthems by the church choir.

Members of the Sunday School participating in this Christmas pageant and musical are: Danny Conine, Pat Conine, Lloyd Conine, Billy Conine, Tom Conine, Laurie Hallinen, Mark Johnson, Roberta Monroe, Lauri Monroe, Mary Jo Flynn, Joann Rukhila and Ricky Hendrickson.

Members of First Lutheran's Junior Choir are: Paula Kallio, Terry Kallio, Carol Laurila, Diane Oberstar, Gail Hytinen, Mike Pischel, Valerie Pischel, Lisa Sterling, Debbie Sterling, Robin Sterling, Tammy Kallio, Raymond Aho and Charles Custard.

Adult Choir members are: Ida Kallio, Miriam Stephens, Mary Iho, Priscilla Conine, Arlene Conine, Elsie Hytinen, Ellen Hytinen, Julia VanHala, John Rama, Arnold Hill and Neils Mattson.

Program director for the pageant is Mrs. Ellen Hytinen. Mrs. William Bucholtz is choir director and Kristine Kallio is the accompanist. The Rev. George Olson is vice-pastor of First Lutheran.

The public is cordially invited to attend this Christmas musical. Following the program, candy will be distributed to all children in attendance and a social hour will follow in the church parlors.

THE ANNUAL CHARITY BALL sponsored by the Escanaba Woman's Club will be held Saturday, Dec. 28 at the Terrace Supper Club. Tickets for the holiday event are now available at Gartner's, Gust Asp's, Hiawatha Chef Supply and Jon Thorin Aviation. Pictured with several of the prizes that will be awarded during the evening are Charity Ball committee members, Mrs. Richard Pryal, left and Mrs. Marvin Roberts. (Daily Press Photo)

## Candlemaking Project Creates Family Chaos

NEW YORK (AP) — At this season I begin to look with interest upon the displays of beautiful new candles in the stores. I have been possibly the world's most enthusiastic purchaser of commercially made candles—ever since the year we made our own.

We had read in a magazine a bubbly account of how simple it was to produce individual styles "with materials readily available" and what satisfaction it would give you. The writer can have her satisfaction—I'll take the ready-made candles.

**Creative Project**  
At the time the kids were all for the idea and my husband and I decided it would be a delightfully creative project. It was a creative project, all right.

What it created was chaos. As per instruction, we gathered together bars of paraffin, all of the old broken crayons around the house, pieces of string, milk cartons and assorted glasses and bowls.

Then the fun started. We melted the paraffin in various pots and pans, coloring each one a different shade. Then we poured them into the molds. The hot wax broke one of my favorite glass dishes and flowed over the table and across the kitchen in all directions. The floor needed waxing, it's true, but not that way.

After the rest of the molten material had achieved its final resting place, it was time to insert the strings for wicks. They weren't averse to going into the messy mixture, but they were very much against staying in the job, rather than remain upright.

**Clinging Cardboard**  
The milk cartons, when peeled away from their cooled contents, were supposed to reveal a chunky candle of dazzling smoothness. What they did reveal was a flaky tower of unevenly colored wax that still had bits of cardboard clinging to it.

But the piece de resistance was to have been our special design—a candle of mixed colors. We had put our hearts—and our best crayons—into its creation. To produce a stunning effect, we had swirled into the paraffin red, green and blue additions. Somebody gave it one swirl too many and the whole thing turned a pasty gray—indeed a stunning effect.

**New Pans**  
Despite the energetic use of detergent, steel wool and other assorted scrubbing techniques it was impossible to get all the wax out of the utensils used for melting it, so a new set of pans went on my Christmas list. But at least nobody could accuse us that holiday season of burning our candle at both ends. They wouldn't burn at all.

## St. Joseph's H&S Holds Holiday Dinner

St. Joseph's Home and School Association sponsored a Christmas dinner for the faculty and priests of St. Joseph's School on Tuesday evening at the school.

Holly, candles and a Christmas tree with gifts for the teachers and priests decorated the dining room. A social hour followed the service.

Serving were the Mesdames Roger Beauchamp, W. A. Pelouquin, Lawrence Curran, Marcel Guindon, Gary Peterson and Daniel Stacey.

## Events

**Christmas Exchange**  
Members of Kappa Epsilon Chapter of Beta Sigma Phi Sorority will hold their Christmas gift and cookie exchange at 8 p.m. today at the home of Mrs. Ray Bydelak.

\*\*\*  
**PEO Meeting**  
Chapter Z, PEO Sisterhood will meet at 8 p.m. Thursday at the home of Mrs. Walter Dickson, 523 Ogden Ave. Assisting hostesses will be Mrs. C. H. Bohn and Mrs. John Walbridge. Mrs. Burton Butler will be in charge of the program.

\*\*\*  
**Golden Age Club**  
Golden Age Club will meet at 7 tonight at the civic center. Cards will be played followed by lunch and dancing. Members are to bring their own cup and spoon. There will be no meetings or socials until Jan.

## Annual Church Program Held In Bark River

The Bark River United Methodist Church Christmas program was held in the church Sunday, Dec. 15 at 5 p. m. and opened with the hymn, "There's a Song in the Air," by the assembly. Other songs were "Silver Bells", "What Child Is This?" "We Wish You a Merry Christmas" by the Little Boys Choir and "Silent Night".

Singers were Jackie Harris, Jill Getzloff, May Sundquist, Howard Erickson with electric guitar accompaniment, and the Little Boys Choir: Robby, Kenny and Lenny Wickstrom, Scott Peterson, Todd Fournier and Brian Phillips.

Recitations were by: Dawn Peterson, Kathy Harris, Debby Phillips and Brian Phillips and Elizabeth Peterson. Skits were by the Bergquist family, Harold, Doris, Harold, Jr., and Pamela, Rev. and Mrs. Konstantin Wipp and Mrs. Clara Peterson. The Christmas story was read from the Bible by Chris Peterson and portrayed by Dean and Dawn Peterson.

An offering was taken for "Children's Village". David Peterson presented gifts to Rev. and Mrs. Wipp, the McQuest Youth Fellowship leaders and Mrs. Tony Pirlot, counselor. A family pot luck supper followed the program.

The Department of Health, Education and Welfare (HEW) was created by President Dwight Eisenhower.

# Women's Activities

MEMBERS OF Girl Scout Troop 9 of Webster and St. Thomas Schools have been collecting, repairing and making toys for the children at the Newberry State Hospital. Pictured with some of the items that are completed are, front row, left, Janis Weiland, Kathryn Nelson, Carolyn Johnson, Penny

Benoit, Michelle Whitman and Judy Weiland; second row, Diane Weiland, Terry Rouse, Faith Nolde, Mary Rouse and Margaret Crnich. Not pictured is Rance DeRouin, Leader is Mrs. Louis Weiland. (Laurel Weiland Photo)

### Blood Donors Exceed Quota At Gladstone

The visit of the Bloodmobile to Gladstone on Tuesday was successful, the Red Cross reports, with a total of 69 units of blood collected.

Seven donors who had made appointments kept them, 68 were "walk-ins", six prospective donors were rejected—but the result was a successful 69 units collected.

Recipients of the gifts given by the Gladstone Chamber of Commerce were Mrs. Clifford Mineau of Gladstone, Wayne Bakka of Rock and Duwayne Burak of the Chemical Plant Location.

The donors contributed a total of 14 units of replacement blood for Steve Micheau of Escanaba, who is being treated in a Milwaukee hospital for burns suffered in an accident at Harnischfeger truck crane plant last fall.

### Flu-Like Illness Spreads:

## Visiting Restricted To Protect Patients

The increasing incidence of flu-like illness is causing St. Francis Hospital and the Pinecrest Medical Care Facility to adopt restrictions on visitors to protect the health of the patients, it was announced today.

Joseph Laskar, assistant administrator, St. Francis Hospital, said visiting is restricted to members of the patient's immediate family.

"We want to prevent possible exposure of the patients and the restriction will help reduce the hazard. Although the Hong Kong flu is not prevalent in this area, we want to help protect patients from the 'bug' if we can," he said.

At Pinecrest, Gene L. Marcantonio, administrator, said that "effective immediately" all

visiting privileges will be restricted.

"Adult members only, of the immediate family of patients at Pinecrest, will be admitted be-

### Choir Will Be Heard Thursday On Channel 6

The Choir of the Escanaba Area Public High School will be heard on WLUC-TV, Channel 6, Marquette, at 10 p. m. Thursday, directed by Conrad Beck in a half-hour program of Christmas songs.

Soloists will be Birgit Olson, Diane Marrier, Darryl Pepin and Karen Beck, with Mrs. Helen Moore accompanist.

cause of the increase in the spread of Hong Kong flu virus in Michigan," he said.

"All children under the age of 18 are entirely prohibited. I request the cooperation of all visitors concerned, so that the health and welfare of the patients are protected. Visitors should consult with the floor nurse before entering the patient's room," the administrator advised.

Dr. Mary Cretens, director of the Delta-Menominee District Health Department, noted today that although there are no proven cases of Hong Kong flu in this area and the Upper Peninsula, there are cases downstate and that holiday travel is expected to hasten the distribution.

"There are many flu-like diseases in the Upper Peninsula, however, causing both respiratory and intestinal symptoms," she said. "But there is no Hong Kong flu proven by test."

She suggested that persons seeking to avoid the "flu bug" also avoid large gatherings and get plenty of rest.

The flu-like illnesses reported in the area could be dangerous to the elderly and to the sick and for this reason they should be kept from contact with it so far as possible, Dr. Cretens concluded.

### Briefly Told

Mrs. Barbara Turnquist, area representative for the Community Action Agency, announced that her office which has been in the basement of the Delta County Building has been moved to 705 Ludington St., upstairs of the Escanaba Steam Laundry. The same office hours will be maintained and the telephone number will be 786-3511.

### Search Fails To Find Trace Of Missing Woman

MARQUETTE — Skindivers, search aircraft and boats Tuesday failed to find any trace of a Marquette woman who was reported missing Saturday after she went to Presque Isle, an island park in Lake Superior here.

Authorities feared that the woman, Mrs. Christina Carlson Thomas, 28, may have fallen down a steep ledge on the park's edge and into the icy water of the lake.

Mrs. Thomas was reported missing Saturday afternoon by her father, Elmer K. Carlson, a former Marquette mayor and an executive of the Lake Shore Engineering Co., here. He said his daughter often walked in the park but did not return Saturday.

Authorities found her car parked at the park's entrance. Footprints led into the park. She had been living with her parents as she attended a post graduate course at Northern Michigan university.

### Obituary

#### MRS. KATHERINE BEBEAU

Funeral services for Katherine Bebeau were held at 10 a.m. today at St. Joseph's Church with the Rev. Jordan Telles officiating. Burial was in Gardens of Rest Cemetery. Pallbearers were Gregg O'Brien, Glen Olsen, James Burroughs, Micky Sigan, Mark Norton, and Peter Bebeau.

#### MRS. JOHN ERICKSON

Funeral arrangements have been completed for Mrs. John Erickson as follows: friends may call at the Boyce Funeral Home from 3:30 to 9:30 p.m. today and the Rosary will be recited at 8 p.m. Complete funeral services will be conducted at 9 a.m. Thursday at St. Patrick's Church and burial will be in Fernwood Cemetery, Gladstone.

## Marine Unit 'Santa' Brings Toys For Hannahville Tots

Santa Claus does not wear a red suit and drive a team of eight airborne reindeer.

"Santa" arrived in Escanaba this morning wearing a Marine Corps uniform and flying a U. S. Navy C-47 transport plane.

The occasion was the fourth annual visit of the "Toys For Tots" campaign directed by the Marine Air Reserve Training Detachment at the Glenview, Ill., Naval Air Station, in cooperation with the McDonald hamburger people of the Chicago area.

A total of 18 boxes of toys, plus bicycles, tricycles and little cars, etc., were delivered to the Escanaba Municipal Airport for some 85 children in the Hannahville Indian Community.

Collected in Chicago Toys were collected in the Chicago area for distribution at Christmas to children of the Chicago area who might miss the thrill of a visit from Santa.

Lt. Jerry Hillard, who directed the Marine effort along with Staff Sgt. Donald Blankenship, said some 3,000 families will benefit from this year's campaign. Truckloads of toys also were delivered to children's institutions in the Chicago area for distribution on Christmas.

About 400 toys were flown into Escanaba for Hannahville children.

Billy Bolin of Gladstone, field representative for the U. S. Bureau of Indian Affairs, said the toys will be sorted.

ed by VISTA workers for presentation to the Indian children.

Toys were taken to the Hannahville Community Building this morning in a pickup truck and two automobiles.

Ann Don of Chicago, a representative for McDonalds, said the company is happy to be able to participate in the program. McDonald's hamburger stores in the Chicago area serve as drop points for residents making contributions.

"They have been a big help

to us again this year in collecting toys," Hillard said.

Started in 1947

"Toys For Tots" began in Los Angeles, Calif., in 1947, Hillard said. In 1952, it became a national program of the Marine Air Reserve.

The first flight to Escanaba was in 1964, when a C-119 brought a load of toys in January after weather delays had caused the mission to miss Christmas. In subsequent years, flights have been scheduled in advance of the holiday.

## Rep. Diggs Visits NMU Campus

MARQUETTE (AP) — U.S. Rep. Charles Diggs, D-Mich., says he is "impressed with the strong commitment" of Northern Michigan University's president in attempting to resolve a conflict involving a women's Job Corps program at the university.

Diggs, a Negro, maintained, however, that racial differences were involved.

The faculty senate has recommended the Job Corps center be removed from the campus. The faculty cited a "cultural" gap which it said existed between Job Corps trainees and NMU students.

One complaint of the students had been that Negroes — students, trainees at the center and visiting servicemen from nearby Sawyer Air Force Base — were subjected to discrimination on campus.

Diggs met Tuesday with John X. Jamrich, NMU president, administrators and Dean of Students Allan Niemi. Diggs later went to the Air Force base where he said he talked to some 100 Negro airmen.

He was accompanied on the

trip by Joseph J. Gross of Detroit, a member of the university's board of control.

The Job Corps has 310 persons enrolled, 80 per cent of them Negro.

The faculty senate urged removal of the center from the campus, correction of social discrepancies involved or that the \$1.6 million contract with the Office of Economic Opportunity be allowed to expire.

Thursday, Dec. 19, 4 p. m.— Cherub Choir; 7:30 p. m.— Adult information and library committee meeting.

## ICC Recommends C&NW Merger Plan

WASHINGTON (AP) — An Interstate Commerce Commission hearing examiner recommended today approval of the proposed merger of the Chicago and North Western Railway Company and Chicago, Milwaukee, St. Paul & Pacific Railroad Co.

If the commission approves, the merger would form a rail complex of some 22,000 miles. It would operate in 15 states, extending from points in Illinois and Indiana to the West Coast. The C. and N.W. operates from Chicago westward into Wyoming. The Milwaukee operates from Chicago across the northernmost tier of states to the west coast of Washington.

The hearing examiner, Henry C. Darmstadter, said in his 292-page report that the future of the two railroads as independent railroads, "although not without many bright spots, is not reasonably assured."

The examiner foresaw no adverse effect from the merger on

existing passenger service and said freight operations should be materially improved.

He said the merger would permit the new company to provide a more efficient and effective service while realizing savings at a minimum of \$34 million annually.

The recommendation now goes to the commission, which could approve it, turn it down or order more hearings. Extensive hearings, mostly in Chicago, have been held on the proposal.

Darmstadter said that all of the conditions which the applicants agreed to accept for the merger were imposed including those for the benefit of the Frisco, the Ann Arbor and the Green Bay and Western Railroads.

At the same time, however, he declined to recommend imposition of any of the conditions sought by the Union Pacific, Southern Pacific, Lake Superior and Ishpeming, Western Pacific,

Northern Pacific, and Great Northern Railroads. He said that although these railroads would suffer some diversion of traffic, it would not affect their ability to provide service to the public.

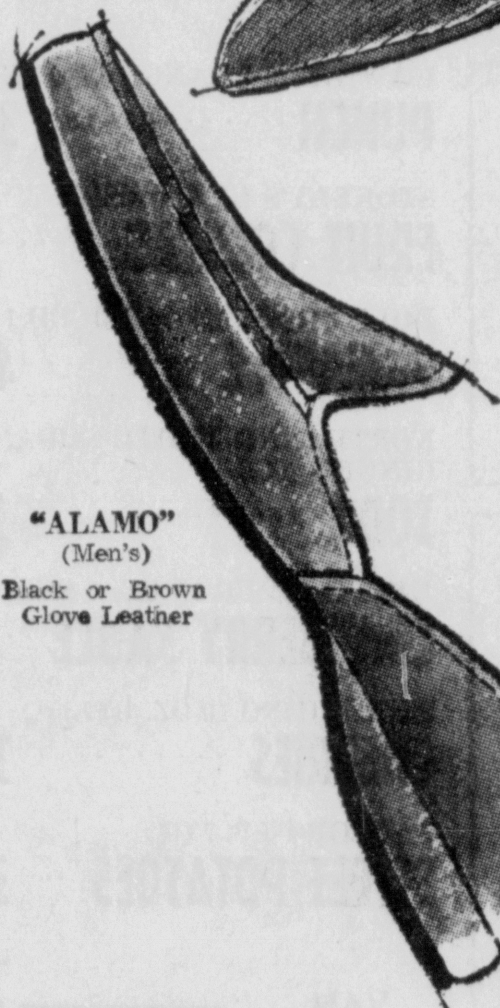

The examiner found that the public interest warranted that provision be made for the Soo Line's access to Milwaukee and Green Bay, Wis., to provide competitive service in those localities. At the same time, except for granting trackage rights between Junction City and Wisconsin Rapids, Wis., the examiner declined to impose any other conditions requested by the Soo.

## Magoon Named New Magistrate By Supervisors

Howard Magoon was appointed magistrate of Schoolcraft County by the Board of Supervisors last night upon recommendation of Judge-elect Charles Stark of Munising, who will sit as Alger - Schoolcraft District Judge beginning Jan. 1.

Magoon's appointment could, however, conceivably be challenged as could the Board's action confirming the appointment, according to a verbal opinion from the State Attorney General's office.

County Clerk Fred Lesica told the Board he telephoned the Attorney General's office in Lansing Tuesday morning on the legality of the appointment after one of the newly-elected district supervisors questioned the out-going Board's authority to make the appointment.

Called 'Debatable'

Lesica said he was advised by Assistant Attorney General Sagendorf that he (Sagendorf) felt the present boards could not take any action, although no written opinion has been handed down. The Lansing official said it was debatable whether Judge - elect Stark should make a recommendation on the appointment, since he will not assume office until Jan. 1.

Stark, who was present at the meeting, said this question was raised at a Boyne Mountain conference he attended last week and several state supreme court justices at the meeting volunteered that such

requests were appropriate.

Stark, in urging the Board to approve his recommendation, pointed out that the Alger County Board of Supervisors had approved a magistrate for that county last week. Many other boards in Michigan counties have also acted, he noted.

Even assuming that the attorney general's opinion is correct and that the appointment could be voided by the new county boards, a de facto magistrate would be able to act until then and could now begin setting up the magistrate's court, Stark said.

In nominating Magoon, who is presently justice of the peace, Stark said his experience as justice qualifies him for the new position which will be broader in scope than the present set-up.

Salary Is \$7,000

Magoon's appointment was a unanimous one and his salary was set at \$7,000 annually. The county has budgeted \$9,300 for the magistrate's court and the remaining \$2,300 will pay the salary of a part-time deputy clerk. State statutes set \$5,000 as minimum salary for magistrates.

Magoon has served as justice of the peace since 1958 when he was first elected to that post. He was born in Gladstone, attended school in Marquette and studied for two years at Northern Michigan University. He is a veteran of World War II and moved to Manistique in 1951.

As magistrate, Magoon will function under the new District Court as its principal administrator in Schoolcraft County. The magistrate will be empowered to set bonds and issue warrants upon recommendation of the prosecuting attorney in addition to accepting guilty pleas in traffic cases and keeping records.

Magistrate's court will be open from 9 to 5 p. m. and a half-day on Saturdays, and the magistrate will also be on call Sundays for bond postings and scheduling of appearances of those charged over the weekend.

## Nelli President Of Gun Club

Pete Nelli was elected president of the Manistique Rifle and Pistol Club when they held a dinner meeting on Wednesday night at the Club. Bill Turpin is the new vice president and Bill Wallace, secretary-treasurer.

Four teams were formed for winter pistol shooting. Floyd's Finchers has Floyd Houghton as captain with Mike Morden, Earl Malloch, Mo Fagin and Bill Hicks; Lyle's Liars; Lyle Kotchen, captain; Ken Thorell, Tom Hoholik, Arvid Larson and Ray Salo.

Paul's Pistols is captained by Paul Hanson with Ed Olson, Gary Jacobson, Lloyd Johnson and Bill Wright; Peter's Plinkers chose Pete Nelli captain and Bill Wallace, Carleton Hubbard, Charles Atwater and Connie Hoholik as members.

## Movie Night For Senior Citizens

"Ethiopia: Empire of the Mountains" is one of the two color films which will be shown to area senior citizens and their guests at "Movie Night" tonight at the Senior Citizens Drop In Center.

"Ethiopia" is a story of the country by the same name pointing out its magnificent beauty.

"Nature's Half Acre" is the title of the second film by Walt Disney Enterprises and depicts teeming life in a small plot of ground including the animal, plant and insect life around us.

"Movie Night" will begin at 7:30 p.m. with refreshments following the films. No admission is charged.

A SANDBLASTED concrete work by Picasso, "Bust of Yvette," above, is New York City's newest modern outdoor sculpture. The work of art, located in Greenwich Village, was dedicated Monday during a ceremony at New York University. (AP Wirephoto)

## Pupils Clash At Grand Rapids

GRAND RAPIDS, Mich. (AP) — Scores of white and Negro pupils clashed Tuesday in a free-for-all battle at Grand Rapids Junior High School, and police used clubs and chemical spray to quell the disturbance.

School superintendent Norman Weinheimer announced late Tuesday there would be no classes Wednesday.

Police said 23 pupils were arrested, 10 of them under the age of 17. One of those newsmen saw taken into custody was a Negro youth who wielded a knife to hold off a group of white students surrounding him.

Several students were injured in the melee, apparently none seriously.

School officials ordered classes dismissed for the day about two hours after the violence erupted in the cafeteria during the noon lunch hour.

Some 75-100 uniformed and plainclothes police battled with white and Negro students alike to break up two separate disturbances. One of the first officers at the scene said chairs were thrown, but apparently no one was struck by them.

It was the second time in two days and the third time this year that racial trouble had erupted at the school, which first opened its doors in January.

The school has a predominantly white student body of some 1,750 girls and boys. This fall, about 300 Negro students were bused to the school in an experimental integration program.

Negro students have asked for more black staff members, a Negro history course and also have complained about overcrowding on the buses, according to Principal Emery Freeman.

Meetings have been held between school officials and both Negro and white students to discuss the problems.

## Volpe Is Against Public Joining In Road Planning

WASHINGTON (AP)—Federal highway officials were told Tuesday the incoming secretary of transportation, Massachusetts Gov. John A. Volpe, opposes a proposed regulation intended to permit broader public participation in highway location and design.

A spokesman for the Michigan Department of Highways voiced concern over the proposal.

Volpe was joined in opposing the proposal by representatives of most of the nation's governors and many state highway superintendents.

But representatives of the National League of Cities, the U.S. Conference of Mayors and groups dedicated to local history and conservation gave the idea strong support.

Federal Aid Roads

Volpe's opposition was mentioned in testimony by Joseph E. Quinn, an officer of the National Grange, who told a department hearing: "Gov. Volpe has wired his opposition to the promulgation of these proposed regulations. I recommend—the Grange recommends—that no action be taken until the new administration takes over this department."

The regulations would require two hearings in advance of any final decision on the location and designing of highways financed through federal aid.

The proposed rules would allow anyone to appeal highway decisions to the Federal Highway Administration.

The provisions for appeal of local-state decisions to federal officials brought strong attacks from state highway administrators who said the procedure would cause endless delays in road construction and cause road-building costs to skyrocket.

Poorly Concealed

"Gentlemen, our backs are to the wall," said John W. Knecht who appeared for the Michigan Department of State Highways.

"The press has described the proposed regulation as a good one and we are pictured as 'public be damned bureaucrats for our opposition.'"

"The proposed regulation is poorly conceived, threatening in its method of application and casts doubt on the future of a viable highway program," Knecht said.

## Church Events

**Bethel Baptist Church**  
King's Daughters of Bethel Baptist Church will hold their Christmas meeting Thursday at 7:45 p.m. at the church. West-Side Forty Group is in charge of refreshments and friends are invited to attend.

## Youths Damage Housing Project

Gladstone City Police are investigating vandalism at the Housing project. According to Chief of Police James Norick two juveniles were apprehended by the watchmen Sunday morning after finding the basement flooded.

Apparently the vandals had pulled hoses lose in the basement causing the flooding which reached the hydraulic mechanism for the elevator system which has been estimated at approximately \$1,000 for repairs.

Norick said they were continuing the investigation but that this is federal property and it is not known if a federal agency will also investigate. He has recommended that parents keep a close check on their children to see that they are not playing in the area.

The building was scheduled for occupancy in December but is behind schedule. It is not known if this incident will cause another delay.

## Perkins

**Christmas Program**  
The Christmas program at Perkins High School will be held today at 7:30 p.m. The program will be presented in the gym by grades kindergarten through sixth. The school band under the direction of John Violette, will also play several selections.

Christmas vacation begins Friday, Dec. 20 and classes will resume on Jan. 2.

## GLADSTONE

Rev. Loren Anderson

## Rev. Anderson Leaving Parish

The Rev. Loren Anderson, pastor of Evangelical Covenant Church, will leave Gladstone sometime in March to accept the position of pastor of Covenant Congregational Church in Cromwell, Conn.

The congregation of the local Covenant church accepted Mr. Anderson's resignation at a congregational meeting following the Sunday Worship service on Dec. 15.

The Andersons came to Gladstone in October of 1964. They have two daughters, Sheri, 7 and Susan, 4, and one son, Timothy, 2 years old.

## Briefly Told

Gladstone City Police issued a traffic ticket to Ronald F. Hawkins of Chesaning, Mich., for speeding.

State Police issued traffic summonses Tuesday to Dennis Chemier, Rte. 1, Gladstone, excessive noise; Linda Moss, Gladstone, speeding, and Herman Palmgren, Bark River expired operator's license.

## Personals

Petty Officer and Mrs. James W. Rosenlund and daughter, of Pacific Beach, Washington, are expected to arrive Thursday to visit with his parents, Mr. and Mrs. Ever Rosenlund, N. 15th St., over the holidays. Rosenlund, who re-inlisted in the Navy in July, has recently been promoted to 2nd Class Petty Officer and will begin a tour of overseas duty at the conclusion of a 15-day furlough. His wife and daughter will remain in Gladstone.

Mrs. Minnie Olson, 810 Michigan Ave., is spending the Christmas holiday with her daughter, Mrs. Frank Hanson in DeKalb, Ill.

## K. Tremper, 73 Dies On Tuesday

Kristina Tremper, 73, of 823 Dakota Ave., Gladstone was dead on arrival at St. Francis Hospital at 8:45 a.m. Tuesday. She was born Sept. 25, 1895 in Michigan and had resided in Gladstone for five years. There are no known survivors.

The body has been removed to the Skradski Funeral Home and funeral arrangements are incomplete at this time.

## Trenary

**Christmas Dance**  
The senior class of the Trenary High School will sponsor a Christmas Dance Wednesday, Dec. 18 from 8 to 11 p. m. in the gymnasium. Music will be provided by "The Sour Mash". School dress is to be worn and refreshments will be served.

**Guest Speaker**  
David Kallio, seminarian from St. Paul, Minn. will be the guest speaker at the First Lutheran Church at 9 a. m. Sunday, Dec. 22. He will also speak at 10:15 a. m. in Our Saviour's Lutheran Church in Eben.

**Gift Packages**  
The Methodist Youth Fellowship is soliciting gift packages for youngsters in the Methodist Children's Home in Detroit. Articles may be left in the dining room of the United Methodist Church.

Students of the Trenary school will be dismissed for the Christmas holiday at 11:50 a. m. on Thursday. Classes will resume on Thursday, Jan. 2.

## Kalamazoo High In Traffic Safety

CHICAGO (AP)—Kalamazoo, with a traffic death rate of only .9 per 10,000 registered vehicles, was Michigan's safest city through this year's first 10 months, the National Safety Council reported today.

Lansing, with a 1.5 ratio; Flint, with a 1.8, and Detroit, 3.3, were among the top three in cities in their population groups.

Kalamazoo was second to Lake Charles, La., 0.3, among cities with 50,000 to 100,000 population. Racine, Wis., had a similar 0.9 deaths per 10,000 vehicles.

Flint and Des Moines, Iowa, were second among cities of 200,000 to 350,000 population. This classification was topped by Syracuse, N.Y., with 1.0.

Detroit placed behind Houston, 2.6, and Chicago, 3.2, among cities with more than a million population. Lansing and Salt Lake City tied for the No. 1 spot among cities of 100,000 to 200,000, with 1.5.

## Register Weapons

JOPLIN, Mo. (AP)—Agents of the Alcohol and Tobacco Tax Unit received a bulky envelope with a letter that said: "After much soul-searching I sincerely believe I should not register this dangerous weapon, but instead, turn it in for you to dispose of. After all, David changed history when he killed Goliath with a similar weapon." Enclosed was a sling shot.

## Revenge

HARTFORD, Conn. (AP)—A 42-year-old engineer pleaded guilty to sending cash-on-delivery orders for books and magazines for persons he didn't like.

## Legal Moose Kill In U.P. Is Dream

LANSING (AP)—If you want to shoot a moose, hunt in Canada or Alaska. It's very doubtful that you'll ever be able legally to kill North America's largest member of the deer family in Michigan.

"I suspect there's probably between 20 and 50 moose on the mainland of the Upper Peninsula," said Dave Arnold, biologist for the Department of Natural Resources.

"They appear and disappear at regular intervals," he added. "We've had a flurry of sightings in the last couple of months which is encouraging."

Unless the small herd grows considerably, the chances are that moose hunting will never be permitted, Arnold said.

**Swim St. Marys**  
Very little is known about Michigan's moose herd.

"We know the animals must live in Marquette and Dickinson counties," he said. "But it's an extremely low breeding population."

Moose are frequently spotted near the eastern end of the Upper Peninsula. But these are Ontario animals that swim across the St. Marys River, Arnold said.

An encouraging note is that some of today's best moose hunting areas in Ontario supported very few of the palm-antlered animals several years ago, the biologist reported.

Moose are native to Michigan and lived here long before the first white settler ever stepped foot in the state.

**On Isle Royale**  
"But early records don't indicate the moose was very plentiful," Arnold stated.

A herd of about 200 animals lives in the Isle Royale National Park.

"If Michigan ever permitted moose hunting, it would probably be on a permit system similar to those issued for elk in 1964-65, Arnold said.

The elk became extinct in Michigan in the late 1800s. They were restocked in the late 1920s and hunting was permitted about 40 years later when it became apparent there were more animals than the habitat could support.

The seasons also permitted biologists to learn more about the elk herd.

**Moose Season**  
Presumably, the season on elk will be opened again.

"We don't view them as an animal to have an annual season like deer," Arnold said. "Our principle objective with the elk is for tourists to view."

He added that gunners "obviously shot all the dumb elk—at least those remaining became wilder and harder to see."

Hunters bagged 452 elk during the special seasons.

Whether moose multiply to the point where they will become plentiful enough to hunt remains to be seen.

"When we'll have a moose season I don't know," Arnold said. "Maybe never. But it's nice to speculate on."

## Ball Says Meat Plants Checked

LANSING (AP)—Reports suggesting that half of Michigan's meat plants are not subject to meat inspection are "not true," says B. Dale Ball, director of the State Department of Agriculture.

Ball cited reports from a U.S. Department of Agriculture conference earlier in the week and said they failed to distinguish between slaughter inspection and processing inspection.

Thus, he said, the impression was given that much of Michigan's plants are not inspected.

"All slaughter plants in the state come within our rigid sanitation and inspection requirements," Ball said.

"Meat grinding or processing plants previously, under Michigan law, came under food inspection responsibilities, not

subject to USDA standards. The transition is just being made from our food inspectors to the meat inspection division," he added.

Ball said he hoped Michigan consumers would realize the extent of their food inspection. "Scare" stories from federal officials do not necessarily apply to Michigan, he said.

"Part of the USDA's aim I'm sure, is to prod other states that lag far behind Michigan in meat sanitation standards."

# FOB Detroit

By Jerry Green

DETROIT — The World Series movies are out in vivid technicolor and with a new cast of heroes. It's a fine film, available to clubs and groups through the Tigers with a waiting list already becoming lengthy.

Baseball has been shooting and showing the World Series movies for many years. But usually they're been dull reruns, nothing as interesting as the films the NFL takes. Baseball is making a counterattack against football in this area, too, now.

The only thing is the plot in this World Series flick. It's too zany. Nothing like that would happen in real life.

Al Kaline was watching the preview showing here a couple of days ago. When the film finished with the highlights of the rainy fourth game, Kaline turned around and said:

"I like the odds."

He must have had a peek at the script.

The top spot of the film is that still controversial play at the plate that turned the Series toward Detroit in the fifth game. Over and over, from different views, and in slow motion, the film shows Lou Brock coming into Bill Freehan and umpire Doug Harvey signaling out. There is an interview with Freehan and an exclusive with the umpire himself.

After watching the play about five times, I finally decided Brock really was out at the plate. And no matter what they say, Freehan did apply the tag during the impact of the collision. As he turned into Brock, Freehan held his mit with the ball gripped in his fingers in front of him. Freehan explained that day last October he tagged Brock the second time as a reflex action. Brock was trying to return to the plate and Freehan put the tag on him again. Harvey had already called Brock out before then with his vigorous thumb sweep.

Also shown several times was Jim Northrup's triple that won the seventh game. We see Curt Flood stepping in, then stumbling, then much too late starting to chase Northrup's drive.

Would Flood, reputed to be the National League's best fielding center fielder, have caught the ball with a clean start? "I think so," said Kaline, a recognized authority on fielding. Al did not see the play originally because he was leaning over the water cooler in the dugout runway.

"I don't know," said Northrup, who not only hit the ball in discussion, but had the background as the Tigers' center fielder in the Series.

Before he had seen the movies, Northrup felt the ball would have gone beyond Flood even with a good start.

Now he was hedging.

"It would have fallen in anyway," said Earl Wilson, after watching the movie.

"The ball was slicing away from him all the time," said Northrup, standing with Wilson.

"That's right," said Wilson. "I was in the bullpen that day and had a better view than anybody because I could see the play in front of me. Flood never would have caught it."

"It doesn't matter now," said Northrup. "We won."

The Tigers had a pretty good script writer in 1968. He even had the actors discussing the message as they left the premiere.

There is the final scene which gets rather candid. This is the victorious clubhouse scene. Standing in the middle is one of the more controversial actors in the flick shaking up a bottle of champagne and squirting the charged up juice at everybody and everything.

Dennis D. McLain even fired the champagne into the eye of the camera.

The World Series film rates four stars.

# Low Scoring Flyers Romp Over Penguins

By The Associated Press

It's feast or famine with the Philadelphia Flyers.

The Flyers, lowest scoring team in the National Hockey League with 58 goals, broke loose Tuesday night with an 8-2 romp over Pittsburgh.

In the only other game played, Oakland used a pair of goals by Billy Hicke to beat Minnesota 3-2.

On Sunday, Philadelphia broke an 11-game winless streak which included consecutive 1-0 defeats. Then, the Flyers made up for some lost time against the Penguins. Rookie Dick Sarazin had his second consecutive two-goal game and Andre Lacroix and Brit Selby also scored two apiece.

Sarazin also picked up a pair of assists and now has 12 points in 10 games since being called up from Quebec of the American League.

Keith McCreary scored both Pittsburgh goals—his second straight two-goal game.

Hicke's second goal of the game on a power play midway through the third period beat Minnesota for Oakland.

Hicke opened the scoring with the only goal of the first period before the North Stars jumped in front on second period goals

by Danny Grant and Claude LaRose.

But Joe Szura tied the score for the Seals when he intercepted a pass in the Minnesota end and swept in alone on Cesare Maniogo. Then Hicke's power play goal won it and moved the Seals within one point of second place Los Angeles in the West Division race.

## Ribant Bought By Royals Club

KANSAS CITY (AP) — The Kansas City Royals, 1960 American League expansion baseball club, announced Tuesday the purchase of Dennis Ribant, a right handed pitcher, from Toledo of the International League.

The Royals said Ribant, 27, will be assigned to the Kansas City farm club in Omaha but will go to spring training with the Royals.

A veteran of four years in the majors, Ribant had his best year with the New York Mets in 1966 when he achieved an 11-9 record. He divided the 1968 season between Detroit and the Chicago White Sox, combining for a 2-4 mark and an earned run average of 4.34.

and Bradley followed with another to give New York a 91-90 lead with about 5½ minutes left. Then after Rudy LaRusso put the Warriors in front 92-91, Frazier hit a two straight three-point plays, and the rout was on.

Frazier finished with 15 points, 10 in the fourth quarter, and Bradley scored 20 and pulled down a game-high 14 rebounds.

Walt Bellamy led New York scoring with 24 points, and Dick Barnett added 21. LaRusso topped San Francisco with 28 points.

Two driving layups by Zelmo Beaty in the final minute led Atlanta to its fifth straight victory. Beaty finished with 20 points, while Bob Boozer scored 21 for Chicago.

Walt Frazier and Bill Bradley sparked the Knicks' victory over San Francisco, which played without Nate Thurmond and Clyde Lee, who are injured.

After the Warriors scored eight straight points in the final period to go ahead, 90-87, for the first time since the opening quarter, Frazier and Bradley brought the Knicks back.

AL GRABOWSKI (14), Holy Name's high-scoring guard, drives in for a layup attempt which resulted in two of his 19 points in the game with the Stephenson Eagles last night at the Holy Name gym. Ready to grab a rebound for Stephenson are Scott, Tessermer (25) and Darrell Freis (15). Grabowski was high scorer on the floor last night but the Crusaders fell to the Eagles, 52-51. (Daily Press Photo)

# Vikings, Colts Dominate 1968 All-Pro Selections

NEW YORK (AP) — Green Bay's domination of the National Football League All-Star honors ended in 1968 when Baltimore and Minnesota each placed four players on the 22-man offensive and defensive units picked for The Associated Press by a 48-man committee of sportswriters and sportscasters, three from each league city.

Earl Morrall, who has been everybody's back-up quarterback for years, finally moved front and center as the All-Star quarterback with the Baltimore Colts. He replaced John Unitas, the 1967 All-Star who gave way to Morrall at Baltimore this year because of a tennis elbow.

The starting backfield consisted of Morrall and the fleet running back combination of Leroy Kelly of Cleveland, the two-time rushing champion, and Gale Sayers of Chicago, despite the knee injury that put him out of action for the season Nov. 10.

Clifton McNeil, the speedy receiver who was acquired by San Francisco from Cleveland just before the season started, was named the flanker on the basis of his league-leading 71 pass catches.

Bob Hayes of Dallas was the split end and John Mackey, Baltimore's solid citizen, was the tight end.

The five-man offensive line was manned by Mick Tingelhoff of Minnesota at center, Gene Hickerson of Cleveland and Howie Mudd of San Francisco at the guard posts and Ralph Neely of Dallas and Bob Brown of Philadelphia at the tackle jobs.

Los Angeles had three starters on the defensive team, including Deacon Jones, the perennial all-league end, and Merlin Olsen, his running mate at tackle. Eddie Meadow at safety was the third Ram to make the club.

Carl Eller of Minnesota was Jones' partner at defensive end

and Bob Lilly of Dallas again teamed with Olsen as the defensive tackles.

Dick Butkus, enjoying one of his best seasons with the Chicago Bears, was picked as the middle linebacker with Chuck Howley of Dallas and Mike Curtis of Baltimore as corner linebackers just edging out Green Bay's Dave Robinson.

Bobby Boyd of Baltimore and Lem Barney of Detroit won the corner back jobs and Larry Wilson of St. Louis, still as good as ever, was back again at safety to team with Meadow.

Both men were free safeties and it is possible the AP may ask voters next year to designate a strong safety as well as a free safety.

Twelve of the 22 players will be in action this weekend in the Saturday-Sunday conference playoffs with Dallas and Baltimore each having four and Cleveland and Minnesota each two. The Cowboys will be at Cleveland Saturday for the Eastern Conference title and the Vikings at Baltimore Sunday for the Western crown.

Only 10 repeated from last year's team. They were Mackey, Neeley, Hickerson, Sayers and Olsen, Lilly, Howley and Wilson on defense.

Ten of the 16 teams placed men on the first team and, for the first time in recent memory, there were no Packers although Jerry Kramer, guard, Willie Wood, safety, and Robinson, linebacker, all were on the second team.

Kelly was the top vote getter with 45 of a possible 48. He wound up with a career high of 1,239 yards, a 5.0 yard average and 20 touchdowns, 16 on runs and four on pass receptions.

Morrall was picked as quarterback by a landslide, with only Bill Nelsen of Cleveland, Don Meredith of Dallas, Bart Starr of Green Bay and Fran Tarkenton of New York getting any other votes.

In the competition for corner linebacker jobs, Howley had 20 votes, Curtis 17 and Robinson 14.

# Sluggish Crusaders Drop 52-51 Contest

Slow, deliberate play on the part of the Stephenson Eagles resulted in a 52-51 upset victory over the Holy Name Crusaders in a game played last night at the Holy Name High School gymnasium.

Even the scoring of Al Grabowski and Terry Dufour could not overcome the error-filled, sluggish play of the Crusaders in the game. Grabowski led all scorers on the floor with 19 points and Dufour was the only other Holy Name player in double figures, scoring 17.

Holy Name started fast, shooting 66 per cent in the first quarter but the Eagles came on after a slow start to close the gap in the first quarter to 13-12. Dufour made two of three field goal attempts in the quarter and the hot-shooting Grabowski was three for four. Stephenson shot 50 per cent from the field in the opening period.

Grabowski and Dufour kept up their scoring pace in the second quarter but the Stephenson offense picked up even more and took the lead at the 2:37 mark of the quarter and never trailed from that point. The score at halftime read Stephenson 26, Holy Name 23.

The Eagles carried an eight point lead through most of the third quarter and led at the quarter break, 43-33, due to some hot shooting by guards Scott Tessermer and Darrell

Freis. Their lead shot up to 51-35 before Holy Name finally got its offense and defense working together late in the fourth quarter.

With 1:59 left to play in the game, Holy Name crept to only two points behind while holding Stephenson scoreless. The Eagles blew five one-and-one attempts at the free throw line while the Crusaders were hitting all of their shots from the gift line.

With only five seconds left on the scoreboard clock, Tessermer sank the first of a one-and-one free throw attempt to put the Eagles out of reach and a layup by Bob McGinn of the Crusaders made the final score 52-51.

## Tigers Tounce Pembine, 80-34

POWERS — A potent offensive attack led the Powers-Spalding Tigers to an 80-34 decision over the Pembine Panthers in a game played last night in the Powers-Spalding High School gym.

Dick Smith and Jack Fleetwood teamed up to pace Powers-Spalding with 24 and 23 points respectively and Kim Reidy tossed in 15. No Pembine player reached double figures and Lee Schlais led the way with nine points.

The Tigers outrebounded the Panthers 38-23 and shot 49 per cent from the field, hitting 33 of 67 attempts. The Tigers also hit 78 per cent from the free throw line, making 14 of 18 charity shots.

The Powers junior varsity ran over the Pembine JV's, 86-17 in the preliminary game.

Stephenson shot 44 per cent from the field in the game, making 19 of 43 field goal attempts, while Holy Name connected on 18 of 47 shots from the field for 38 per cent. The Crusaders managed to outrebound the Eagles 32-26 with Dufour leading the way with 12 rebounds. Grabowski took ten shots in the game and made eight of them, most of which were from the 15 to 20 foot range.

Tessermer paced the Eagles with 14 points while teammates Bary Hafeman and Dennis Alexjun chipped in with 14 and 13 respectively and Freis added 10.

After a slow start, the Holy Name junior varsity emerged victorious for the fourth straight time this season, downing the Eagles' 65-42.
